Dear Parents of Upper Hutt College

The Capital Dental Mobile Clinic will be visiting Upper Hutt College and will provide FREE basic dental care and dental health under the Ministry of Health Service Agreement for school students below 18 years of age.

We provide the full range of basic dental care, not limited to the following:

- Full dental examination including radiographs (xrays) as required
- Fillings (restorations) in baby & permanent teeth
- Cleaning/scaling - to remove plaque
- Fissure sealants for the prevention of decay
- Extraction of teeth as required
- Dentures and crowns as required
- Bite Splints for Bruxism (habitual grinding of teeth)
- Root canal treatment and root fillings as required
- Dental health education - helpful information for keeping teeth healthy

Majority of the services are carried out at the Capital Dental Mobile Clinic, however due to complexities some of the above services are undertaken at our closest clinic to the school which is: Upper Hutt Dental Centre, 19 Main Street Upper Hutt.

Feel free to contact us if you have any concerns on the above.

Yours sincerely

Ajay Parmar  
Practice Manager
