

Upper Hutt College

Course Selection Handbook 2023 Year 11, 12, 13

How to Use this Booklet

Please start by going through the introduction section so you are aware of the process you need to go through for subject selection and the pathways your subjects and potential careers will follow.

Complete the **Choosing your Subjects template** before you enter your subject selections either on-line via the KAMAR Portal on the school website.

www.upperhutt.school.nz OR on the Course Selection sheets provided.

Helpful Hint:

On the following contents page click on the blue title and you will be taken straight to the relevant subject page in the booklet.

	Level 3	Visual Art – Photography	(PHO301)

INTRODUCTION

This booklet has been produced to help you select the subjects you will study in the following year. It is very important that you select carefully – your future may depend on it. The further you go in the senior school, the more difficult it becomes to change that direction. The very best advice is to keep as broad a range of subjects as possible for as long as possible.

Guidelines for Choosing Senior Subjects

- Keep your options open – choose a spread of courses
- Do something you like, that you are good at and that you are interested in
- Discuss your options with your parents, whanau, teachers, Dean or the Careers Advisor
- To study a particular subject at Year 12 or Year 13 level it is often necessary to have taken it, or a related subject, in the previous year
- Think about what you will be studying in the future beyond school and what is required at tertiary institutions. Do the subjects meet the university entrance requirements?
- Will you meet the course **entry requirements** for the subjects you have chosen?

UHC Careers

Website: <https://upperhutt.careerwise.school/> This website has links to all NZ University pages, some Australian Universities, and most Wellington based tertiary course providers, including NZIS, Weltec and Yoobee. It also has links to financial information about student loans, information about scholarships, different careers information and CV writing tools. Students, staff and whanau can sign up for weekly newsletters from the page, which will update on anything new added to the page, including jobs advertised, notices from universities about open days or important dates.

Other Useful Helpful Career Information

Use the Careers linked to a Vocational Pathways pages of this booklet to find out detailed information careers and the pathways they belong to. Click on the job as it is hyperlinked straight to the Careers New Zealand website.

Follow the steps below to complete your subject choices:

Step 1	Complete the planning sheet on the next page		
---------------	--	--	--

Step 2	Ask your subject teachers: <ul style="list-style-type: none"> Do they recommend you continue with the subject? Can you meet the pre-requisites or entry requirements 		
---------------	--	--	--

Step 3	Discuss your choices with your Parents/Caregivers/Careers Staff/Deans <ul style="list-style-type: none"> Choose for you not what your friends are doing 		
---------------	--	--	--

Step 4	Check: Check the Subject Pathways on page 9 do your subjects lead to further choices. <ul style="list-style-type: none"> Can you gain entry to the subject you choose? 		
---------------	--	--	--

Step 5	Check: <ul style="list-style-type: none"> Do your subject choices open up or close down possible career choices for you? 		
---------------	---	--	--

Step 6	Check: If you are planning to go to University or a Polytechnic: <ul style="list-style-type: none"> Do you have the right subjects to apply for the course you might like to study? Do you have the correct credits to be eligible for U.E 		
---------------	--	--	--

Step 7	Fill in the grid below to help plan your future course of study.		
---------------	--	--	--

Year 11

English (Compulsory)	Mathematics (Compulsory)	Science (Compulsory)
-------------------------	-----------------------------	-------------------------

Year 12

English (Compulsory)

Year 13

--	--

Step 8	Fill in all parts of Subject Choice Form online through the KAMAR Portal <i>Make sure you get it in on time to ensure you have the best chance of getting the course you want to take.</i>		
---------------	---	--	--

QUALIFICATIONS IN THE SENIOR SCHOOL

THE NATIONAL CERTIFICATE OF EDUCATIONAL ACHIEVEMENT (NCEA)

a. How Does NCEA Work?

NCEA recognises achievement in a wide range of studies. It means schools can offer a broader range of subjects and students can gain credits from standards developed by industry.

To gain an NCEA certificate students must earn credits, by meeting standards in their chosen subject areas. Some standards will be assessed by the external examinations; others will be assessed by internal assessment.

Achievement/Unit standards make clear to teachers, students and parents the standard of work, skills and knowledge necessary to achieve. Students earn credit by fulfilling the requirements of the standard. These standards encourage high expectations. Achievement standards have been designed so that satisfactory work, good work, and truly excellent achievement can be recognised with “Achieved”, “Merit” and “Excellence” grades.

Students will be told how well they have performed in each part of each subject with marks for both externally examined components and internally assessed work.

b. Requirements for Achieving NCEA

NCEA Level 1

Students need to gain 80 credits at Level 1 and of those 80 credits, students will need to have gained 10 credits in English or Te Reo (literacy) **and** 10 credits in Mathematics (numeracy).

NCEA Level 2

Students need to gain 80 credits. Of those 80 credits, 60 must be at Level 2 or above (20 credits from their Level 1 Certificate to fulfil the requirement for Level 2). Students must also meet the requirements of Level 1 literacy and numeracy.

NCEA Level 3

Students need to gain 80 credits. Of those 80 credits, 60 must be at Level 3 or above (20 credits from their Level 2 certificate to fulfil the requirement for Level 3). Students must also meet the requirements of Level 1 literacy and numeracy.

Endorsements

Students may gain Certificates with either Merit or Excellence endorsement or a course endorsement.

- Merit: at least 50 Merit or Excellence credits
- Excellence: at least 50 Excellence credits

Course Endorsement - when a student gains 14 credits or more in one subject (at least 3 credits must be external and 3 credits must be internal) they will gain an Achieved, Merit or Excellence course endorsement.

Gaining credits at the Merit and Excellence level of achievement is now an advantage when applying for most New Zealand universities and some are offering monetary rewards for endorsements.

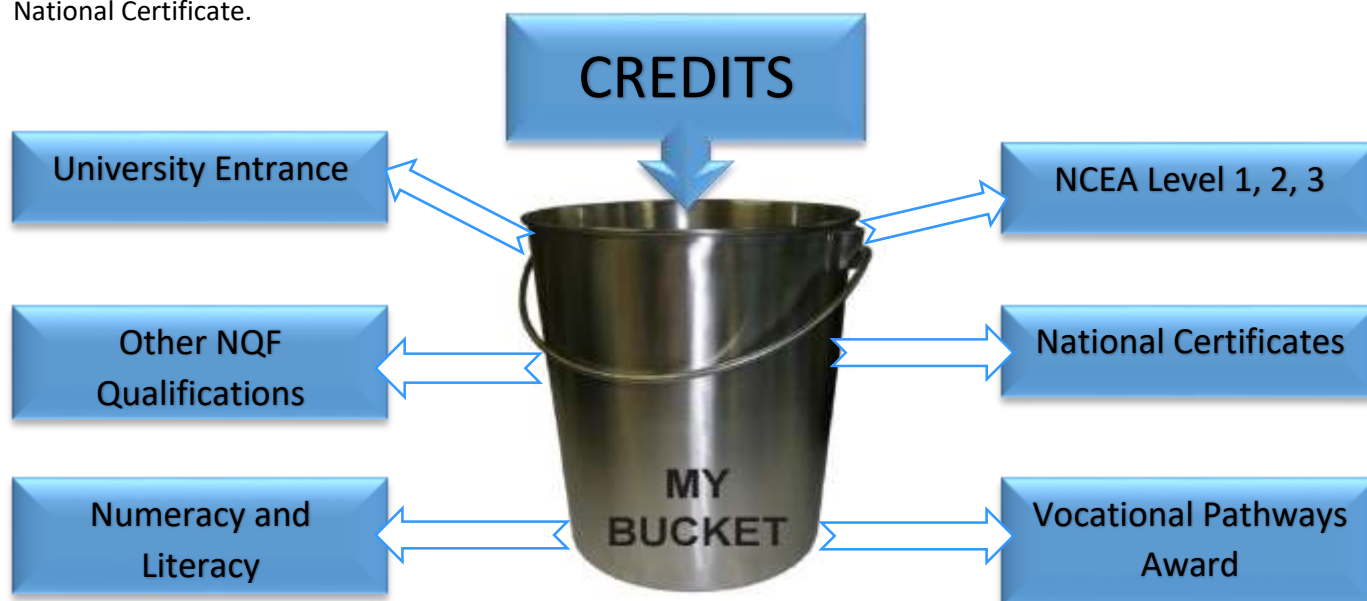

Scholarship

Scholarship is externally assessed. It is designed to extend the very best students and to financially reward very able students who are going on to tertiary study. It is not a qualification. Students sitting Scholarship will be assessed on their ability to think laterally and in the abstract. The exams cover the same knowledge and skills as NCEA Level 3 achievement standards, but the standard of performance required is much higher.

(See www.nzqa.nz/scholarship/index.html)

USING CREDITS TO GAIN MORE THAN ONE QUALIFICATION

NCEA enables students to use their credits for more than one qualification. Credits come out of 'the bucket' to fulfil the requirements of any one National Certificate but go back into the bucket to fulfil the requirements of any other National Certificate.

STUDENT CREDITS RECORDED IN THE RECORD OF LEARNING

USING CREDITS

Credits can be used more than once.

Once gained, credits are recorded on a Student Record of Learning.

When recorded on the Record of Learning, credits can be used to fulfil the requirements of any National Certificate.

For example

A student may gain NCEA Level 1 – 80 credit total.

AND

This student then gains NCEA Level 2 – 80 credits (20 of these credits from Level 1).

AND

Additionally this student gains a National Certificate in Hospitality Level 2 using credits from NCEA Level 2

NATIONAL CERTIFICATE

You may be able to work on other national qualifications as well as NCEA while at school.

Examples of other National Qualifications:

- National Certificate in Business Administration & Computing, Level 1
- National Certificate in Computing, Level 1
- National Certificate in Drama, Levels 2 and 3
- National Certificate in Employment Skills, Level 1
- National Certificate in Hospitality Level 2
- National Certificate in Tourism & Travel
- NZ Certificate in Food and Beverage Service
- NZ Certificate in Retail
- Vocational Pathway Awards

VOCATIONAL PATHWAYS

The six Vocational Pathways are designed to improve the relevance of learning of students by indicating how their learning and achievement is valued by broad sectors of the workforce. Each has been colour coded for ease of recognition to help students, parents, whanau and teachers planning study programmes.

Below is an example of what will be shown for each student and how their subjects relate to the six Pathways. Student and parents will then be able to get an idea of where subjects may lead to and what interests the student may have

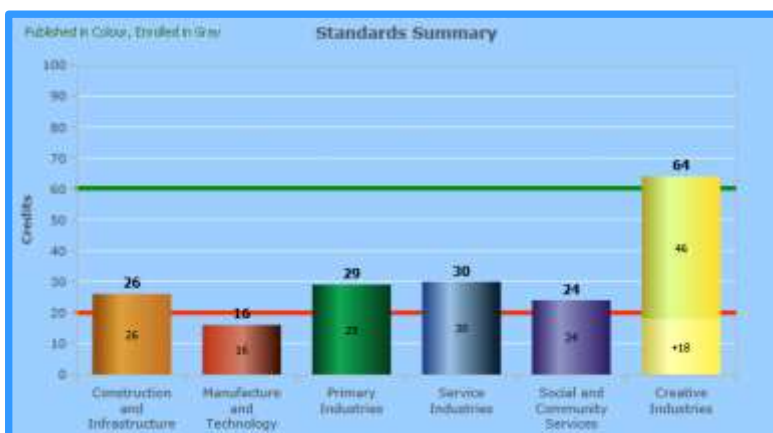

Vocational Pathways Award

(this will be gained if you)

- Achieve NCEA Level 2
- Meet NCEA Numeracy and Literacy requirements (10 Numeracy, 10 Literacy Level 1 and above credits)
- Gain 60 Level 2 credits from recommended standards

Including

- At least 20 Level 2 credits from sector-related standards e.g Services Industries

Check this *booklet* to see how your subjects can be used to gain the Vocational Pathways Award

Every course offered at Upper Hutt College has some standards that are colour coded based on a Vocational Pathway. Some courses may have more than one Vocational Pathway. Pathways are a way of looking at the courses students are taking at school and where they may lead to in the future either in training/tertiary or the workforce.

Visit www.youthguarantee.net.nz to build a profile.

The Profile Builder is the new online tool to create a Vocational Profile. Students and educators can enter the standards achieved (or plan to achieve) using the assessment standards, to build an individual profile.

On www.nzqa.govt.nz students can log on and see their own profile made by their results gained.

CAREERS LINKED TO A VOCATIONAL PATHWAYS

By clicking on the links below you will be taken directly to www.careers.govt.nz and in particular to the page with a detailed information sheet on the particular career you have selected:

Primary Industries

Agricultural Technician	Agricultural/Horticultural Consultant	Agricultural/Horticultural Scientist
Animal Attendant	Aquaculture Farmer	Arborist
Beekeeper	Biochemist	Biosecurity Officer
Biotechnologist	Crop Farm Worker	Crop Farmer
Dairy Farmer	Dairy Products Maker	Dog Trainer
Energy Auditor	Environmental Engineer	Environmental Scientist
Farm Worker	Farmer/Farm Manager	Fencer
Fishery Officer	Fishing Skipper	Food Technologist
Forester	Forestry and logging worker	Forestry Scientist
Gardener	General Labourer	Geologist
Geophysicist	Groundsperson	Horse Trainer
Hunter/Trapper	Landscape Architect	Landscape Gardener
Marine Biologist	Meat Inspector	Meat/Seafood Process Worker
Microbiologist	Nursery Grower/Worker	Packhouse Worker
Production Manager	Pulp and Paper Mill Operator	Quarantine Inspector
Ranger	Saw Doctor	Science Technician
Shearer	Stock and Station Agent	Veterinarian
Veterinary Nurse	Winemaker	Wood Processing Worker
Wool Classer		

Construction and Infrastructure

Air Traffic Controller	Architect	Architectural Technician
Boat Builder	Bricklayer	Building Contractor
Building Inspector	Building Insulator	Cabinet Maker
Caretaker	Carpenter	Civil Engineer
Crane Operator	Concrete Worker	Construction Manager
Earthmoving Machine Operator	Diver	Driller
Environmental Engineer	Electrician	Energy Auditor
Floor Covering Installer	Fabrication Engineer	Floor and Wall Tiler
Glazier	Fork-Lift Operator	General Labourer
Landscape Architect	Interior Designer	Joiner
Line Mechanic	Landscape Gardener	Lift Technician
Mine/Quarry Manager	Locksmith	Metal Worker
Naval Architect/Boat Designer	Miner/Quarry Worker	Mining Engineer
Plumber and Gasfitter	Painter and Decorator	Plasterer
Quantity Surveyor	Project Manager	Property Manager
Roadmarker	Railway Shunter	Roading Construction Worker
Scaffolder	Roofer	Rubbish/Recycling Collector
Surveyor	Stonemason	Survey Technician
Civil Engineering Technician/Draughtsperson		Water/Waste Water Treatment Operator

Manufacture and Technology

Aeronautical Engineer	Aircraft Maintenance Engineer	Architect
Architectural Technician	Automotive Electrician	Automotive Mechanic
Baker	Bicycle Mechanic	Biochemist
Biomedical Engineer	Biomedical Technician (Mechanical and Electronic)	Biotechnologist
Boat Builder	Boiler Attendant	Brewer
Butcher	Cabinet Maker	Chemical Engineer
Chemical Production Operator	Chemist	Civil Engineer
Civil Engineering Technician/Draughtsperson	Clothing Designer	Clothing Marker/Cutter
Clothing Pattern Maker	Computer Systems Technician	Crane Operator
Dairy Products Maker	Database/Systems Administrator	Electrical Engineer
Electrical Engineering Technician	Electrician	Electronics Engineer
Electronics Trades Worker	Energy and Chemical Plant Operator	Engineering Machinist
Environmental Engineer	Fabrication Engineer	Food and Beverage Factory Worker
Food Technologist	Fork-Lift Operator	Furniture Finisher
Game Developer	Glass Processor	Graphic Pre-Press Worker

Importer/Exporter	Industrial Designer	Industrial Spray Painter
Information and Communication Technology Manager	Jeweller	Joiner
Lift Technician	Light Technician	Line Mechanic
Locksmith	Marine Engineer	Meat Inspector
Meat/Seafood Process Worker	Mechanical Engineer	Mechanical Engineering Technician
Medical Laboratory Scientist	Metal Worker	Panelbeater
Picture Framer	Plastics Technician	Plastics Worker
Print Finisher	Printer	Product Assembler
Production Manager	Programmer	Project Manager
Pulp and Paper Mill Operator	Purchasing/Supply Officer	Recycler/Dismantler
Refrigeration/Air-conditioning Technician	Saw Doctor	Science Technician
Screen Printer	Sewing Machinist	Software Architect
Systems Analyst	Tailor/Dressmaker	Technical Writer
Telecommunications Engineer	Telecommunications Technician	Toolmaker
Tyre Technician	Upholsterer	Vehicle Body Bulder/Trimmer
Vehicle Painter	Watchmaker and Repairer	Water/Waste Water Treatment Operator
Web Developer	Website Administrator	Welder
Winemaker	Wood Machinist	Wood Processing Worker

Service Industries

Actor	Accountant	Accounts Officer
Advertising Specialist	Actuary	Administration Officer
Aeroplane Pilot	Advertising, Sales and Marketing Manager	Aeronautical Engineer
Air Force Officer	Agricultural Technician	Air Force Airman/Airwoman
Aircraft Maintenance Engineer	Air Traffic Controller	Aircraft Loader
Animator/Illustrator	Aircraft Refueller	Animal Attendant
Army Soldier	Archivist	Army Officer
Artistic Director	Art Director (Film/Television/Stage)	Artist
Author	Auctioneer	Auditor
Barrister	Baker	Bank Worker
Bicycle Mechanic	Bartender	Beauty Therapist
Bus Driver	Body Artist	Brewer
Cafe Worker	Butcher	Buyer
Caretaker	Cafe/Restaurant Manager	Camping Ground Manager
Casino Worker	Carpet Cleaner	Cashier
Chemist	Check-in Agent	Chef
Conservator	Cinema Projectionist	Cleaner
Copywriter	Contact Centre Worker	Cook
Customs/Freight Broker	Courier/Postie	Curator
Deckhand	Dancer	Debt Collector
Dietitian	Delivery Driver	Demonstrator
Diversional Therapist	Director (Film/Television/Radio/Stage)	Diver
Economist	Dog Trainer	Driving Instructor
Entertainer	Editor	Energy Auditor
Film and Video Editor	Events Manager	Exhibition Technician
Financial Adviser	Film/Television Camera Operator	Finance Manager
Flight Attendant	Financial Dealer	Fitness Instructor
Funeral Director/Embalmer	Florist	Flying Instructor
Geologist	Furniture Packer/Mover	Gardener
Gunsmith	Geophysicist	Graphic Designer
Health and Safety Inspector	Hairdresser/Barber	Health and Safety Adviser
Helpdesk Operator	Heavy Truck Driver	Helicopter Pilot
Hotel/Motel Manager	Historian	Hotel Porter
Importer/Exporter	Housekeeper	Human Resources Adviser
Insurance Agent	Industrial Designer	Information and Communication Technology Manager
Interior Designer	Insurance Claims Officer	Insurance Loss Adjuster
Kitchenhand	Jeweller	Journalist
Light Technician	Laundry Worker/Dry-Cleaner	Legal Executive
Maitre d'Hotel	Locksmith	Mail Sorter
Market Research Analyst	Make Up Artist	Managing Director/Chief Executive
Meteorologist	Massage Therapist	Media Producer
Motor Vehicle Salesperson	Model	Mortgage Broker
Navy Sailor	Musician	Navy Officer
Panelbeater	Office Manager	Outdoor Recreation Guide/Instructor
Pest Controller	Payroll Officer	Personal Assistant

Photographer	Pharmacist	Pharmacy Technician
Picture Framer	Photographic Developer/Printer	Physicist
Professional Sportsperson	Private Teacher/Tutor	Production Assistant (Film/Television/Radio/Stage)
Public Relations Professional	Project Manager	Property Manager
Railway Shunter	Purchasing/Supply Officer	Radio Presenter
Records Adviser	Real Estate Agent	Receptionist
Retail Manager	Recreation Co-ordinator	Recruitment Consultant
Secretary	Retail Sales Assistant	Sales Representative
Ship's Master	Security Officer/Guard	Service Station Attendant
Solicitor	Ship's Officer	Signwriter
Statistician	Sound Technician	Sports Coach/Official
Street/Park Cleaner	Stevedore	Storeperson
Taxi Driver/Chauffeur	Survey Interviewer	TAB Operator
Television Presenter	Technical Writer	Telemarketer
Train Conductor	Tour Guide	Tow Truck Operator
Trainer	Train Controller	Train Driver
Tyre Technician	Travel Agent/Adviser	Typist/Data Entry Operator
Veterinarian	Valuer	Vehicle Groomer/Cleaner
Waiter/Waitress	Veterinary Nurse	Visual Merchandiser
Workplace Relations Adviser	Watchmaker and Repairer	Window Cleaner

Creative Industries

Actor	Advertising Specialist	Advertising, Sales and Marketing Manager
Animator/Illustrator	Architect	Architectural Technician
Archivist	Art Director (Film/Television/Stage)	Artist
Artistic Director	Author	Beauty Therapist
Body Artist	Clothing Designer	Clothing Pattern Maker
Conservator	Copywriter	Curator
Dancer	Director (Film/Television/Radio/Stage)	Editor
Entertainer	Events Manager	Exhibition Technician
Film and Video Editor	Film/Television Camera Operator	Florist
Furniture Finisher	Game Developer	Graphic Designer
Graphic Pre-Press Worker	Hairdresser/Barber	Historian
Industrial Designer	Interior Designer	Jeweller
Journalist	Landscape Architect	Light Technician
Make Up Artist	Media Producer	Musician
Naval Architect/Boat Designer	Photographer	Public Relations Professional
Radio Presenter	Screen Printer	Sewing Machinist
Signwriter	Sound Technician	Stonemason
Tailor/Dressmaker	Television Presenter	Upholsterer
Visual Merchandiser	Web Developer	

Social & Community Services

Acupuncturist	Air Force Airman/Airwoman	Air Force Officer
Ambulance Officer	Anaesthetic Technician	Anaesthetist
Animal Attendant	Army Officer	Army Soldier
Audiologist/Audiometrist	Biomedical Engineer	Biomedical Technician (Mechanical and Electronic)
Biosecurity Officer	Building Inspector	Cardiac Technician
Chiropractor	Clinical Coder	Community Karitane
Community Worker	Conservator	Corrections Officer
Counsellor	Curator	Customs Officer
Dental Assistant	Dental Hygienist	Dental Technician
Dental Therapist	Dentist	Diagnostic Radiologist
Dietitian	Dispensing Optician	Diversional Therapist
Early Childhood Teacher	Education Adviser	Elected Government Representative
Emergency Management Officer	Environmental Health Officer	Environmental Scientist
Firefighter	Fishery Officer	Foreign Policy Officer
Forensic Scientist	General Practitioner	Gynaecologist/Obstetrician
Health and Safety Inspector	Health Promoter	Health Services Manager
Immigration Officer	Interpreter	Judge
Kaiwhakaako Maori	Librarian	Library Assistant
Medical Laboratory Scientist	Medical Laboratory Technician	Medical Radiation Technologist
Medical Radiation Therapist	Midwife	Minister of Religion
Nanny/Child Carer	Natural Health Therapist	Navy Officer
Navy Sailor	Nursing Support and Care Worker	Occupational Therapist
Optometrist	Osteopath	Parking Warden
Pathologist	Pharmacist	Pharmacy Technician
Phlebotomist	Physician	Physiologist
Physiotherapist	Podiatrist	Police Officer
Policy Analyst	Primary School Teacher	Private Teacher/Tutor
Probation Officer	Psychiatrist	Psychologist
Quarantine Inspector	Radiation Oncologist	Ranger
Recreation Co-ordinator	Registered Nurse	School Principal
Secondary School Teacher	Security Officer/Guard	Social Worker
Special Education Teacher	Speech-Language Therapist	Statistician
Sterilising Technician	Surgeon	Teacher Aide
Teacher of English to Speakers of Other Languages (ESOL)	Tertiary Lecturer	Translator
Urban/Regional Planner	Veterinarian	Veterinary Nurse
Youth Worker	Zookeeper	Zoologist

UNIVERSITY ENTRANCE REQUIREMENTS

Universities and other tertiary institutions set their own entry criteria for their courses. If you intend heading in that direction you need to do some research before selecting courses for Years 12 and 13.

Students will need to do ALL of the following to be awarded UE:

- attain NCEA Level 3
- achieve 14 credits at level 3 in **each of three subjects from the list of approved subjects.** (see the box below)
- achieve UE numeracy - 10 credits at Level 1 and above from specific achievement standards, or three specific numeracy unit standards
- achieve UE literacy - 10 credits (five in reading and five in writing) at Level 2 and above from specific standards.

NB: Auckland University requires 17 credits of English at Level 2 or 3

Approved subjects for University Entrance offered at this school are:

Accounting	History
Biology	Japanese
Calculus	Mathematics
Chemistry	Media Studies
Classical Studies	Music Studies
Dance	Painting (Practical Art)
Design (Practical Art)	Photography (Practical Art)
Design & Visual Communication	Physical Education)
Digital Technologies/Computing	Physics
Drama	Printmaking (Practical Art)
Economics	Science
English	Statistics
Food Technology (Home Economics)	Te Reo Maori
Geography	Textiles (processing technologies)
Health	

University Specific Entry Conditions – Guaranteed Entry Scores

Most New Zealand Universities are now introducing an enrolment policy that will determine your selection into an academic programme. At Victoria University the Guaranteed Entry Score from NCEA is 150 points for all undergraduate degrees with the exception of Architectural Studies and the Bachelor of Building Sciences.

How to calculate your NCEA rank score:

- Your rank score will be based on your 80 best credits in University Entrance approved subjects at level 3 or higher, and weighted by the level of achievement. You can count both achievement standards and unit standards
- All Level 3 or higher approved subjects can be counted.
- A maximum of 24 credits in each subject may be counted
- If you have achieved fewer than 80 credits at level 3 or higher the rank score will be based on those you have achieved.
- You are advised to take **approved subjects and achievement standards** wherever possible in your school programme both for entrance purposes and as the best preparation for university study.

Your rank score will be calculated by awarding points as follows:

Excellence	4 points
Merit	3 points
Achieved	2 points

If you have any further questions on NCEA or require assistance, please contact your Dean or Ms Van Maren (the NZQA co-ordinator). For full details on NCEA the following link will be useful:

COMMERCE DEPARTMENT

Teacher in charge – Philip Carew

Introduction

Senior subjects offered in the Commerce Department include:

- Commerce (a mix of Accounting and Economics)
- Business Studies
- Financial Literacy Skills

If you like money (both making it and spending it) then our subjects are for you!

Skills and Learning

Taking a Commerce subject will allow you to develop some of the following **knowledge, skills, experiences** and **attitudes** that allow you to:

- learn how to budget, manage and track your own income and spending
- prepare, process and understand financial records for businesses and organisations
- explore how changes in the economy could affect individuals and groups in society
- understand how values affect the decisions different individuals and groups
- work collaboratively with different groups of people, both other students the wider community
- use digital technologies to research, analyses and present information
- develop entrepreneurial and business management skills

Career Pathways

Studying Commerce will give you the skills and knowledge to pursue careers in any industry – every organisation or company needs business experts in order to grow!

Commerce specific career pathways include:

- Accounting and financial management
- Advertising, sales and marketing
- Economics and government policy
- Human resources (employment and management of workers)
- Production and organisation
- Management and entrepreneurship (owning or running a business)

COMMERCE

NCEA LEVEL 1

CMM 101

What will I learn?

In Commerce at Level 1, we focus on Economics and Accounting. Economics is the study of how people and societies allocate scarce resources and Accounting is about the communication of financial information to users. This subject provides a pathway to year 12 and 13 Commerce and onto a range of Commerce related subjects at university. It also provides a grounding in finance and economics for life in general.

Entry Requirements

None but Year 10 Commerce would be an advantage.

How is this course assessed?

BUSINESS STUDIES

NCEA LEVEL 1

BST 101

What will I learn?

In Business Studies, we will be exploring the way the marketing of products influences us on a daily basis. For instance, why do we choose to buy a V over a Monster energy drink? We will also be looking at how companies make Human Resource based decisions and you will be developing your own product to sell at market day.

The externals will explore how businesses deal with factors outside of their control such as extreme events like earthquakes and Covid-19, as well as how they can operate in a productive way.

Entry Requirements

None

COMMERCE

NCEA LEVEL 2

CMM 201

What will I learn?

This course offers students a combination of Accounting, Business Studies and Economics standards that while preparing students for further studies in Commerce also provide an overview of several critical issues around business management. This will include inventory and money control and employment related issues along with financial statements.

Entry Requirements

A minimum of 14 Achievement Standard credits in both NCEA Level 1 Maths and English and CMM101. Students cannot study CMM 201 and FLT 201 in the same year.

How is this course assessed?

BUSINESS STUDIES

NCEA LEVEL 2

BST 201

What will I learn?

In this level of Business Studies, we will conduct market research for a new or existing product to see how the market will respond to that product. We will comprehensively plan for a business activity, learn the use of Māori business concepts to explain what is happening in a business and refine a business plan. We will collect evidence about the motivation practices in a business from a range of sources and find out how businesses motivate employees to work towards business goals. We will also learn about the internal operations of a large business. This subject will prepare you for working in any business in New Zealand and give you an understanding of the roles business play in our society.

Entry Requirements

Level 1 Business Studies or Level 1 Commerce or at the discretion of the Teacher in Charge.

How is this course assessed?

FINANCIAL LITERACY

NCEA LEVEL 2	FLT 201
--------------	---------

What will I learn?

This course is designed to give you an understanding of how to manage your own finances once you leave home. You will explore potential scenarios that could have a positive or negative impact on your finances, and then learn how to make a budget to reflect these changes. You will also investigate different insurance types and providers and different situations these will be applicable to.

Entry Requirements

Open entry but students should have an interest in learning how to manage their personal financial literacy and plan their future financial literacy. Students cannot study FLT 201 and CMM 201 in the same year.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1

BUSINESS STUDIES

NCEA LEVEL 3

BST 301

What will I learn?

In Level 3 Business Studies students will gain knowledge skills and experience to analyse how and why New Zealand businesses operating in global markets make operational and strategic decisions. Businesses in a global context is a progression from learning about big businesses in Level 2, and small businesses in Level 1. Learning themes at Level 3 are business functions; people in business; business management and the business environment. Students will also learn about related concepts in te ao maori, such as tikanga, putake, turanga, kaitiakitanga, and rangatiratanga, and their connection and application in modern New Zealand businesses.

Entry Requirements

14 credits in Level 2 Business Studies or Level 2 Commerce or at the discretion of the Teacher in Charge.

How is this course assessed?

DANCE

Head of Department: Ms Donna Devaroe

'Dance is the hidden language of the soul.' – Martha Graham

Why study dance?

Education in dance is fundamental to the education of all students. Education in dance promotes personal and social well-being by developing self-esteem, social interactions, and confidence in physical expression. It aims to foster enthusiasm as participants, creators, viewers, and critical inquirers and to develop a lifelong interest in and appreciation of dance.

What skills will be gained?

- You will be developing your practical knowledge in dance. As you learn different technical aspects of different genres you will become a more confident and able dancer and choreographer.
- You will be challenged in terms of developing ideas for choreography and this ability to be able to engage with tasks in a creative and imaginative manner will help in other aspects of your life.
- You will learn to engage, reflect and analyse dance works. Being able to both critique and take other people's criticisms of your work will improve analytical capabilities in all subject areas.
- You will learn how to view dance works and understand them in context. You will come to appreciate that dance is firmly rooted in tradition yet constantly evolving to reflect changes in contemporary culture.

Careers that Dance can lead to:

- Dancer in a major arts organization, such as a ballet company, opera house or musical theatre company
- Choreographer for those same organisations
- Notator to preserve the choreography and repertoire for those companies
- Dancer in a large-scale theme park or Las Vegas production, or smaller productions on a cruise line
- Dancer for music videos and commercials
- Choreographer, trainer or coach for music videos
- Marketing and public relations for a dance company
- Web design and social media management for a dance company
- Grant writing, development and finance for arts organisations
- Artist management and representation
- Arts facilities operations
- Special events planner for a ballet company or arts organisation
- Dance teacher at a dance studio or school
- Dance or movement therapist
- Sports/Personal trainer or Pilates instructor

DRAMA

Head of Department: Jason Towersey

Why choose Drama?

Drama encourages *creativity and self-expression*, as well as *problem solving skills*.

Drama requires students to work in large and small groups, so helps them develop their *people skills*.

Drama develops students' *confidence*, as it requires them to perform in front of audiences.

Each level performs their own Production in front of a paying audience.

Drama teaches students about *the wider world*, through the plays they study and perform. Plays are taken from a variety of time periods and cultures. Students have the opportunity to attend a variety of professional theatre performances through the year.

Drama develops students' *literacy skills*, through reading, writing and performing of written scripts.

Drama has an *academic* dimension, with a written exam at each level. Level 3 Drama is a University Entrance subject.

Drama caters for a wide *variety of learning styles*.

Drama is often *fun*.

ENGLISH

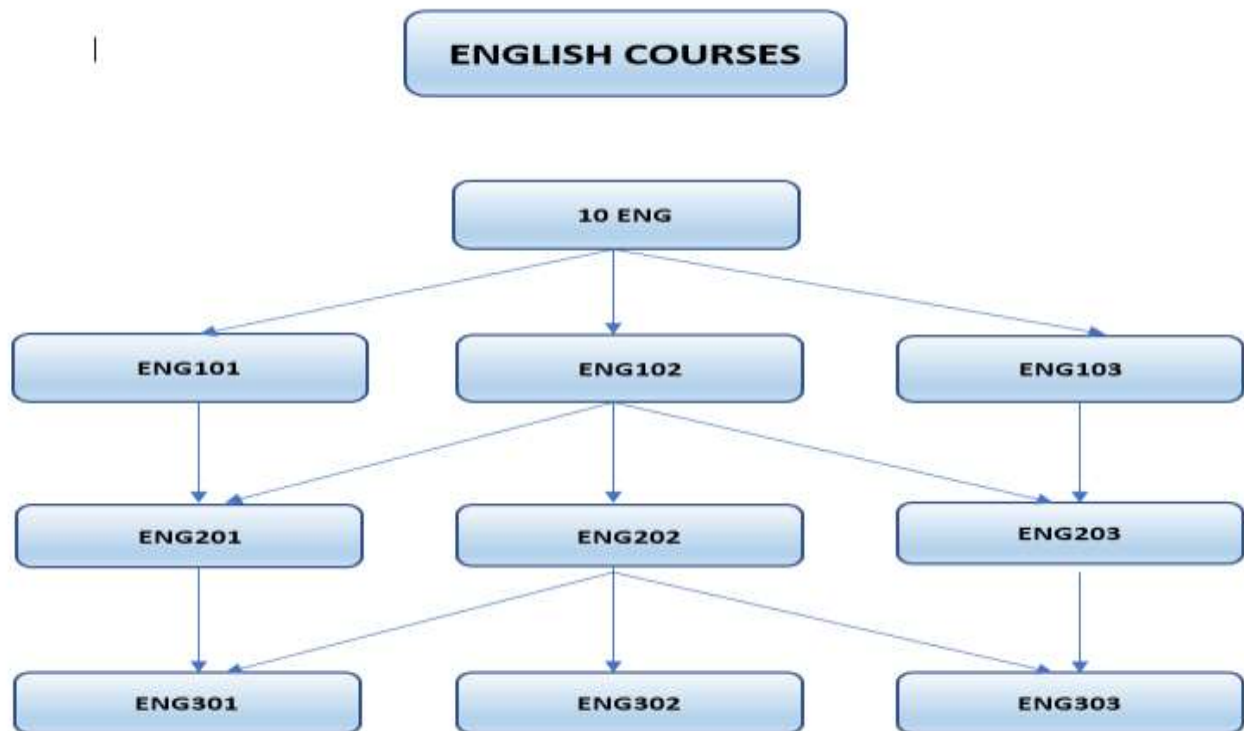

Head of Department : Jonathan Martin

The English Department offers senior students the opportunity to consolidate the skills they have been developing in the junior school. These skills will equip them for their professional and personal lives beyond school. Success in English is fundamental to success across the curriculum.

Students work to:

- Communicate clearly and effectively
- Demonstrate sound written skills
- Speak clearly and with confidence
- Understand the skills of visual communication
- Become independent learners
- Develop their critical thinking abilities
- Understand how language works
- Appreciate and enjoy texts

English is a compulsory subject at Year 11 and 12 level. Students will be placed in classes by the English Department in consultation with the English HOD.

ENGLISH

NCEA LEVEL 1

ENG 101

What will I learn?

Students will complete in depth studies of films, a novel and other texts. Linked to these studies will be writing assessments which include essay writing and formal and creative writing. Students will also develop their close reading skills of unfamiliar texts and produce a static image.

Entry Requirements:

Two years of study in secondary school English. This academic course has the prerequisite of some success throughout Year 10 English. Students **must complete AS 1.8 Connections and AS 1.6 Speech. Some success in essay writing, creative and/or formal writing assessments is also required.** Students without the required prerequisites will require HOD approval.

How is this course assessed?

English For Academic Purposes (ESOL)

Head of Department: Ms Van Maren / Ms Lee

The ESOL Department offers English language courses for international students and for some students living permanently in New Zealand who do not have English as their first language and whose level of English is not high enough for them to attend classes offered by the English Department.

The nature of these courses depends on the ability of the students, their length of time in New Zealand and their educational goals.

Course placement follows testing by the ESOL Department and discussion with students about their goals.

The Year 11 and Year 12 English for Academic Purposes courses aim to bridge the gap these students will find between their present level of English and the language they will encounter in their other subjects and to lay a foundation for developing their academic language skills. These courses will also help learners develop the social language they need at school and in the wider community. They provide students with the opportunity to gain NCEA standards at Levels 1, 2 and 3. Some students also have the opportunity to gain Level 1 and 2 Literacy credits.

YEAR 11-12 ENGLISH FOR ACADEMIC PURPOSES

EAP101

The Year 11 English for Academic Purposes course is for students who are at an pre-Intermediate (Independent) level on the Common European Framework of Reference (CEFR). The course will include some of the following, depending on the needs of the students: Reading Comprehension, Writing Reports and Writing Recounts. There may also be an assessment of a Formal Speech.

The Year 12 English for Academic Purposes course is for students who are at a Intermediate (Independent) level on the Common European Framework of Reference (CEFR). The course will include some of the following, depending on the needs of students: Wide Reading, Formal Writing, Film Review, Poetry Study and Film Study.

OTHER ESOL COURSES

In addition to this course, we also offer other English Language (ESOL) courses. These can be at any level. They may be for students at a lower or higher level than the English for Academic Purposes courses or they could be for those same students who require additional ESOL assistance. These classes focus on subject support and language extension. At Year 12 and 13 levels there will be provision for the completion of NCEA literacy Standards that students have already begun in Years 11 and 12.

Provision will also be made for those students wishing to prepare for international examinations such as IELTS and the Cambridge examinations.

HEALTH

Head of Department: Haley Charles

Why Study Health Education?

By studying Health, you will develop the competencies to become resilient, confident, connected, actively involved, lifelong learners, ready to contribute to the future well-being of New Zealand

What is Health Education About?

- It is about learning to accept and see differing perspectives to an issue
- Being aware of the main ethical issues New Zealand faces
- If someone has a problem, looking at the determinants and factors that may have made the person that way for example, learning not to judge someone, and helping by finding the cause, not just curing the disease

Learning in Health Education

- Supports personal growth
- Challenges thinking about what is fair and just
- Builds resilience and explores issues
- Develops skills for health promotion
- Creates learning pathways

Careers that Health can lead to:

- Education
- Psychology
- Sociology
- Philosophy
- Politics
- Law
- Economics
- Medicine
- Health
- Justice
- Social Services

INTERNATIONAL LANGUAGES

Head of Department: Kath Cowley

Languages are optional at all levels. It is not possible to take a language in the senior school if you have never studied it before. The longer you continue to learn a language the more fluent you will become and the more useful it will be for your future.

Why learn another language?

Economics

- The cross-cultural and communicative competence coming from language learning will be an advantage for those of you who go on to study or work overseas, where competition for jobs is more fierce
- Students who develop some proficiency in a different language will be able to play a role in local tourism and growing New Zealand's export business

Learning Benefits

- Learning a language gives you a better understanding and practical grasp of your first language
- There are cognitive benefits that come from learning languages – learning a language will help with your study in other Learning Areas
- You will experience the huge personal satisfaction and fun of being able to communicate in another language

Culture and Identity Benefits

- Learning a language gives you an understanding of another culture and of a different worldview.
- It allows you to learn how to be outside your cultural 'comfort zone' and to develop positive attitudes to difference
- You will also become more aware of your own worldviews and cultural identity

Social and Societal Benefits

- Learning a language helps you to learn the Key Competencies of Relating to others and Managing self, as well as giving you the confidence to make mistakes and take risks
- Cross-cultural skills will be necessary for all New Zealanders as our country continues to diversify culturally and we welcome increasing numbers of tourists, students and migrants from other countries.

---------------------------------	---------------------------------	---	--	---	---------------------------------

JAPANESE

NCEA LEVEL 1	JPN 101
---------------------	----------------

What will I learn?

In Japanese Level 1, you will learn to communicate in an additional language, develop your capacity to learn further languages and explore different worldviews in relation to your own. This course aims to consolidate basic reading, writing, listening and speaking skills. The topics studied include self-introduction, family life, making arrangements for a visit/trip, everyday life, hobbies and holidays.

Entry Requirements

Completed Year 10 Japanese or with HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	AS90894 v2	Give a spoken presentation in Japanese that communicates a personal response	4								
1	AS90897 v2	Write a variety of text types in Japanese on areas of most immediate relevance.	5						SR

NCEA LEVEL 2

JPN 201

What will I learn?

In this course, you will learn to communicate in an additional language, develop your capacity to learn further languages and explore different worldviews in relation to your own. This course builds your confidence to express and exchange ideas to establish real communication in Japanese. You will gain the skills to express opinions and to present fact and arguments on a range of topics such as describing events (for example Festivals), reviewing a movie, and school life in New Zealand and Japan.

Entry Requirements

A minimum of 10 Achievement Standard credits at previous level or HOD approval.

How is this course assessed?

TE REO MAORI

Head of Department: Jackie Awa

Ki ngā hau tapu, tawhitō

Ki nga kawai rangatira tuturu

Ki nga toto Ariki o nga Atua

Ki nga maunga kōrero, karanga, karakia

Ki nga awa manawa, manaaki, tiaki a tatou

Ki nga hapu, nga whanau

Tena koutou, tena koutou, tena koutou katoa

Languages are optional at all levels. It is not possible to take Te Reo Māori in the senior school if you have not studied it before.

Why is Learning Te Reo Māori important:

Te Reo Māori is the language indigenous to Aotearoa. Every one has the opportunity to learn Te Reo Māori. By learning Te Reo Māori young New Zealanders can become much more aware of the role that Māori identity, language and culture play in our countries identity.

Why learn Te Reo Māori:

Effective communication in another language is more than simply using different words to convey a message, and it involves more than learning. It is about helping students to explore, the beliefs, values, and patterns that shape the Māori interpretations of this wider, changing world. For some students this will be an opportunity to explore their own Māori identity, language and culture.

Taking Te Reo Maori will help in the following careers:

Te Reo Māori is offered in all Universities and Tertiary institutes in New Zealand. Many aspects of Te Reo Māori are helpful in, Mahi Toi, creative arts, communications, Media studies including presenters, Te Karere, Waka Huia, Documentaries, Journalism, Newspaper writer, tourism, treaty negotiations, local and national government etc.

Cross cultural skills will be a necessity for all New Zealanders as our country continues to diversify culturally as we welcome increasing numbers of tourists, students and migrants from other countries.

Kia ora mai tātou.

MEDIA STUDIES

Head of Department: Zondree Pierre

Introduction

Media Studies is an academic subject that focuses on the active exploration, analysis, creation, and enjoyment of the media and its products. Media Studies at Upper Hutt College has a strong focus on film media, although students will also be exposed to other media such as television, print and the Internet.

Media Studies examines the role of the media in society, how the media constructs messages about individuals, communities, and cultures and how media products are produced, controlled, and distributed.

Through Media Studies students gain the knowledge and skills to conceive, plan, design and make media products that engage audiences.

Why choose Media Studies?

During our courses you will:

- Develop expertise in creating and producing media products (music videos, commercials, trailers, news items, short films)
- Improve Research Skills
- Improve higher-order thinking skills
- Participate in project-based learning experiences
- Learn to use hardware and software related to audio-video manipulation
- Work with stimulating and creative ideas

Where Can Media Studies Lead?

Media Studies is major at all major universities around the world. It is also a strong part of creative arts, communications and commerce. Media Studies can lead to careers in any aspect of the media including; TV presenter, radio broadcaster, film editor, producer, communications manager, marketing manager, PR director, copywriter, scriptwriter, reviewer, journalist, magazine or newspaper writer or editor. Media Studies also leads into tertiary study in university and other tertiary institutes for courses in Media Studies, Film and Television, Animation, Creative Arts, Psychology, Linguistics Communications, Sociology, Law, Literature and film studies.

What Media Studies options are available at UHC?

Year 12 Media Studies (NCEA Level 2)

Year 13 Media Studies (NCEA Level 3)

Prerequisite: For guaranteed entrance to Level 2 Media Studies students need 15 Credits in NCEA Level 1 English Achievement Standards OR 15 Credits in NCEA Level 1 Drama. For guaranteed entry into Level 3 Media Studies students need 15 Credits in NCEA Level 2 Media Studies.

If these requirements are not met, entrance to the courses are at the Head of Department's discretion.

Assessment: Assignments and portfolios will be assessed for NCEA Level 2 & 3 Achievement Standards.

-----------------------------	-----------------------------	--	---	--	-----------------------------

MEDIA STUDIES

NCEA LEVEL 2

MED 201

What will I learn?

Throughout the year you are going to be exposed to different film types and genres. You are going to learn how to decode music videos and films, how to critically analyse and interpret the multi layered information embedded within them. You will have the opportunity to make your own media products, including a commercial and a music video. You will analyse how film genre is shaped by and changes with the society in which it is created, and you will analyse the causes and effects of how groups are represented in the media.

Entry Requirements

15 credits in NCEA Level 1 English or Drama or by HOD approval.

MEDIA STUDIES

NCEA LEVEL 3

MED 301

What will I learn?

Throughout the year you are going to be exposed to different film types and genres. You are going to learn how to decode films, how to critically analyse and interpret the multi layered information embedded within them. You will be creating a variety of media products including a short film. You will analyse how film genre is shaped by and changes with the society in which it is created, and you will analyse the causes and effects of changes and developments in the media.

You will also design and produce your own media products using a vast array of technologies.

Entry Requirements

A minimum of 15 Achievement Standard credits in NCEA Level 2 Media Studies or HOD approval.

How is this course assessed?

MUSIC

Head of Department: Louise Clarke

Why take Music?

Music studies at school are not just for students who wish to follow a career path in Music. Skills and key competencies learnt in this discipline are transferable to a wide range of careers. Research has shown that students who take Music develop more self-confidence, are conditioned to work hard for results, are more creative, and are better at problem-solving and analysing patterns (Maths), they can work better in a group, and connect more easily with others.

Credits in Level 3 Music carry just as much weight for University Entrance as any other subject and are valued by many other disciplines. For example:

"I am a strong advocate for the role of music for health professional students. Apart from producing more well-rounded professionals who can engage more widely with life in general, the transferable skills that come with a musical background are invaluable." **Prof Sunny C Collings, Dean and Head of Campus, University of Otago, Wellington**

"A number of our best law students have studied music to a senior level. I have no doubt that the discipline required to study music and the brain development which the study of music enhances are a major asset for studying law and other disciplines."

Professor Mark Henaghan, Dean of Law, University of Otago

Music is not only a path to a career as a musician, but also a path to many other careers:

- Acoustics engineer
- Artist manager
- Arts administrator/arts management (includes grant writing and fundraising, managing events, arts advocacy, programming, house manager)
- Audio production (editing, audio engineering, audio development)
- Composer (professional and school band/orchestra; film/TV/gaming; educational publishing; children's music; religious music; musical theatre; commercials)
- Cruise ship entertainer
- Educator
- Electronic production and design (including audio engineering, mastering, mixing, music directing, producing, program directing, programming, recording engineer, studio manager, MIDI technician)
- Entertainment lawyer
- Event production
- Film, TV, gaming music
- Fundraiser, grant writer
- Instrument repair and restoration
- Lyricist
- Marketing
- Media development
- Music app developer
- Music critic, reviewer, blogger
- Music licensing
- Music programmer (for events, clubs, restaurants)
- Music publishing (online and print writing, copywriting, editing, managing, proofreading, publishing, researching)
- Music therapist
- Music web producer
- Musicologist
- Personnel Manager (orchestras, arts organizations, shows, events)
- Producer
- Promoter
- Public relations agent or coordinator
- Radio (announcing, librarian, manager, programming, research, station broker)
- Recording (producer, engineer)
- Religious music – sacred music
- Royalty analyst, royalty accountant
- Session musician
- Software developer
- Songwriter (including composer, lyricist, producer; jingle writing for television, radio and internet; freelance work; librettist)
- Sound engineer or technician

--------------------------	--------------------------	--------------------------------------	-------------------------------------	--	--------------------------

MUSIC

NCEA LEVEL 1

MUS 101

What will I learn?

Music 101 builds on skills and knowledge gained in Year 10 Music. You will develop your composition skill and performance skills in both group and solo performance. You will deepen and extend your knowledge of composers and music theory in order to prepare for further study at Level 2. There is an option to gain 4 credits in Music technology but this will be only offered after consultation with the teacher and will be in lieu of one of the standards offered e.g. Group Performance.

Entry Requirements

Previous study of Music at Year 10 and at least 2 years' instrumental tuition. Vocalists will be assessed by the HOD. Students must be prepared to enrol in Itinerant tuition and commit to regular practice on their instrument/ voice in their own time. Students will also need to include Group performance rehearsal time into their time management plans.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	AS91090 v3	Perform two pieces of music as a featured soloist.	6								
1	AS91091 v3	Demonstrate ensemble skills by performing a piece of music as a member of a group.	4								
1	AS91092 v3 OR AS91095 V3	Compose two substantial pieces of music. OR Demonstrate knowledge of two music works from contrasting contexts	6							✓	

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	AS91094 v2	Demonstrate knowledge of conventions in a range of music scores.	4							✓	

Notes: Remember you need 10 Level 1 literacy and numeracy credits to gain NCEA Level 1.

Learning Resources that are Highly Recommended. If students have access to laptops, Sibelius First, Mixcraft software for PCs and Garage Band on Macs are highly recommended.

PATHWAYS

Head of Department: David Murden (MN)

Pathways, Retail, Gateway, Future Pathways

The Pathways Department offers the following courses:

Pathways, Future Pathways, Gateway, Retail

Pathways

The Pathways courses are aimed at students who wish to take a purely internal based course and will include a variety of internal level 1, 2 and 3 Unit Standards based on life skills and career pathways. The areas covered are not eligible for UE.

Gateway

The Gateway Programme is offered at Upper Hutt College to selected students from the senior school. Gateway is a programme which opens pathways for students from school to the world of work. This is an opportunity for students to blend school study with workplace learning and experience, whilst trying out potential career paths. Entry Requirements include a completed application form, Curriculum Vitae and attend a Gateway interview.

Retail

These courses provide students with a chance to learn customer service, sales and business skills in a retail context. A selection of Level 2 & 3 unit standards are provided and students are rostered to work with barista trainees, serving customers in the school cafe - The Beanie.

Future Pathways

This course is suited to students who do **not** intend to return to school for Year 13 and want to begin their career pathway. Entry will require the student to submit an application to the relevant tertiary organisation and gain successful entry into their course. Students will attend school for 3 days a week and their course for the other two days. All students interested in this course must talk to the HOD, complete an application form and attend an interview

FUTURE PATHWAYS

NCEA LEVEL 2

FUT 201

What will I learn?

This option is for students who have a genuine interest in one of the career pathways listed below.

Please note there may be changes to courses offered for 2023

Most students who take this option will attend a polytechnic, WelTec Trades Academy or Primary ITO Farming for 1 or 2 days a week completing their course. You will be learning information and skills and completing practical's specific to that career option. In the other three days at school you will complete five other subjects including 201 Pathways

Entry requirements

All students must register their interest with the HOD Pathways, Mr Murden, and need to complete a separate application form to the training organisation and attend an interview

To be considered for the WelTec Trades Academy you need to have gained approximately 50 credits towards your NCEA Level 1 including the 10 numeracy and 10 literacy credits.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Possible Options/Careers	Credits	PI	SI	S&C	M&T	C&I	C
2	Subject specific	Construction Trades	Approx. 40					SR	
2	Subject specific	Engineering and Automotive.	Approx. 40				SR		
2	Subject specific	Hospitality	Approx. 40		SR				
2	Subject specific	Introduction to Sport and Fitness	Approx. 40		SR				
2	Subject specific	Introductory to Animal Care	Approx. 40	SR

RETAILING

NCEA LEVEL 2

RET 201

What will I learn?

This class is designed for those students wishing to explore careers in the retail / customer service industries. It is a requirement that students in this course work in the student operated Coffee Shop as all assessments are based on knowledge of the operation of the shop, most have a practical component which must be completed in The Beanie with Mr Murden.

You will learn

- selling and positive customer service skills
- applying safety practices at The Beanie
- the skills required to make buying decisions
- the ways theft and fraud occur in a workplace

Entry Requirements

This course is designed for students who have or wish to obtain employment in the Retail / Customer Service sector and who are able to work independently.

Students are required to work in the Beanie on a rostered basis.

PHYSICAL EDUCATION

Head of Department: Stu Berkeley

The Physical Education Department offers senior students many opportunities to extend and develop the skills introduced in the junior school. Many of you will already be involved in sport at Upper Hutt College. Study in one or more of the courses listed here will give you the chance to relate actual experiences to formal study and help improve understanding, performance and, most of all, enjoyment of physical activity.

Careers: Choosing to study Physical or Outdoor Education in senior school can be the first step on an exciting and worthwhile career pathway. Some of the more common career possibilities are listed here:

*Sports Coach
Dancer
Personal Trainer
Recreational
Adventure Tourism*

*Physiotherapist
Sports Manager
Sports Nutrition
Outdoor Instructor
Mountain Guide*

*Teacher
Sports Medicine
Refereeing
Sports Journalism
Event Management*

Even if you are unsure about the value of studying Physical Education in senior school you can be certain that understanding about healthy exercise lifestyles can set you on the course to lifelong health benefits and physically active lives – something none of us can afford to miss out on.

The Courses: All of the courses described here do require students to undertake formal study in Health, Physical or Outdoor Education. The Year 9 and 10 courses were almost exclusively practical in nature, so students will need to quickly accept that senior school study in these subject areas will be much more rigorous and academically demanding. Students will be required to undergo formal assessment at regular intervals throughout the school year. Some standards are taught across courses and students who choose to do 2 PE courses will only be eligible to gain the credits from one standard.

Before you make any decisions please make sure that you check the prerequisites for the courses. For some courses you will be required to have gained a minimum number of credits from another course and/or passed a specific Standard in order to proceed to the next level.

**All Senior PE classes require students to have full UHC PE uniform for all practical sessions.
Students can take a maximum of two PE based course.**

PHYSICAL EDUCATION

NCEA LEVEL 1

PED 101

What will I learn?

This course is focussed around 5 Achievement Standards based in the realm of Physical Education. It extends and reinforces the work done in Years 9 and 10 and introduces elements of exercise physiology, biomechanics and skill learning. Students will be involved in a range of physical activities and will also spend time in the classroom. You must be aware that there is a significant amount of written work in this course and you MUST be prepared to accept that this is an integral aspect to studying Physical Education and NCEA.

Students considering this course should be prepared to spend much of their time in the classroom, although there is a practical component requiring generally high performance standards.

Entry Requirements

Open – however a proven record of participation in Physical Education at Year 10 is a must or by HOD approval. Please be aware that a high standard of English is required to achieve the written elements of this course.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	AS90962 v3	My active lifestyle.	5								
1	AS90963 v3	The Human Body and how it moves.	5							✓	
1	AS90964 v3	Demonstrate Quality Movement.	3								
1	AS9067 v3	Demonstrate strategies to improve the performance of a physical activity and describe the outcomes.	3							✓	
1	AS90966 v3	Demonstrate interpersonal skills in a group and explain how these skills impact on others.	4							✓	

Notes: Remember you need 10 Level 1 literacy and numeracy credits to gain NCEA Level 1.

Athlete Development Programme

NCEA LEVEL 1

ADP 101

What will I learn?

This course will give students an opportunity to take action to enhance their well-being as an athlete, including nutritional needs; demonstrate quality movement and self-management strategies, describe the effects on participation in their chosen sport and look at factors that influence physical activity and understand implications for self and others. They will also be given the opportunity to lead others and will participate in coaching sessions from external professional coaches.

Entry Requirements - Only students with a high level of competency in their chosen sport should apply.

Students will undergo a selection process which will involve fitness & sports specific skills testing. These will be undertaken by Upper Hutt College staff involved with the Sports Academy, and a selection of outside coaches. Student's record or learning, COA mark and attendance will also be considered.

Assessment Programme and Results

PHYSICAL EDUCATION

NCEA LEVEL 2

PED 201

What will I learn?

This course will comprise of NCEA Level 2 Credits in Physical Education. The course includes the following areas of study; Biomechanics & Functional Anatomy, Sociology of Sport, Exercise Physiology, Skill Learning & Sport Psychology and Lifestyle studies. Study in Year 12 Physical Education will prepare students for a career in the Health and Fitness Industry, and will equip them with the foundations for further study at tertiary level.

Students considering this course should be prepared to spend much of their time in the classroom, although there is a practical component requiring generally high performance standards.

Entry Requirements

- A minimum of **13** Credits at NCEA Level 1 Physical Education.
- Must have gained at least an Achieved in AS90963.
- Head of Department discretion.

ADVENTURE EDUCATION

NCEA LEVEL 2

ADV 201

What will I learn?

This Course focuses on equipping students with the knowledge and skills to pursue a passion for the outdoors. The course comprises of key themes; Bush, Rock, Bike. Students will participate in activities including Navigation, Rock Climbing, Adventure based learning, tramping.

Students considering this course should be prepared to engage in theoretical concepts in the classroom that will allow them to increase their ability to pursue adventure in the outdoors. Students must also understand that this is a restricted numbers course, and as such students will be expected to maintain a high level of discipline or else they put their place at risk.

Entry Requirements

- This is a restricted numbers course and attendance and behaviour records from the previous year will be a large consideration when selecting students for the course.
- HOD discretion.
- Has proven levels of self-management skills both in and out of the classroom.

How is this course assessed?

PHYSICAL EDUCATION

NCEA LEVEL 3

PED 301

What will I learn?

This course extends the work carried out at Level 1 and 2 NCEA Physical Education. Students will: -

- Learn how to appraise and evaluation their ability to perform in a sport following a Personal Improvement Programme.
- Compare their performance level in a sport against national standards.
- Carry out an in depth investigation into an issue affecting New Zealand society.
- Look at ways to influence the physical activity levels of a group of people.

Students considering this courser should be prepared to spend much of their time in the classroom, although there is a practical component requiring generally high performance standards.

Entry Requirements

- A minimum of **15** credits at NCEA Level 2 Physical Education.
- Head of Department discretion.

COMMUNITY SPORTS LEADERSHIP

NCEA LEVEL 3

CSL 301

What will I learn?

This course aims to provide the students with the experience, knowledge and necessary skills required to be able to serve the community as a sports leader. This course will focus on leadership, developing key leadership skills, sports administration, and the basic principles of sport coaching. Students will be expected to take part in the running and organising of UHC and local Primary based sports events.

Links will be made within the local community sports sector.

Entry Requirements

A minimum of 14 credits at a Level 2 PE course.

How is this course assessed?

SPORTS PERFORMANCE

NCEA LEVEL 3

SPO 301

What will I learn?

This course is aimed at students who have a proven record of high performance in one or more sports and who wish to further their studies in Sports Science and its related areas. The course will be modular based and include: Anatomy, Exercise Science, Sports Conditioning and Sport Psychology. A focus of the course will be Personal Fitness, and Training Programme Planning and Implementation.

This course will be made up of both theory and practical aspects and students will be expected to participate fully in both.

Entry Requirements

- Minimum of 12 credits at a level 2 PE course. (Does not include Adventure (Outdoor Education).
- High performance in team or individual sports and proven contribution to school sport.
- Students may be identified by Sports Managers, the Sports Coordinator and the Physical Education department.

How is this course assessed?

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: This is not a university entrance course

Teacher in charge:
Mr Weakley

SCIENCE

Head of Department: Catherine Laing

Science includes General Science, Chemistry, Physics, and Biology.

Introduction

Science is a core subject at Years 9 and 10 and 11. At Years 12 and 13, if students continue with Science they may choose to do one or more of the three specialised areas:

Year 11 students: all students MUST take a Science course. Students will be directed into the most appropriate course for them.

- General Science; OR
- Internal Science; OR
- Biology

Science subjects available in Year 12 are:

- Chemistry
- Physics
- Biology

Science, together with Mathematics and English, forms an important part of our curriculum. It is an essential subject to lead into many careers and professions.

What is Science about?

First and foremost, Science is about discovery. In learning Science one discovers, through systematic observations and experiments, what happens around us and why things happen.

Based on the knowledge and understanding we gain this way, scientists are able to make new discoveries and advances in a range of areas including: technology; medicine; engineering; material sciences; space exploration; genetic engineering; and horticulture.

Much of the Science curriculum at all levels involves hands on experiments. Students learn not only to plan experiments and investigations into all sorts of areas, but also to carry them out individually and in small groups.

Who can or should do Science?

If you are curious about the world around you and want to gain skills to find out why and how things happen, then Science is for you.

If you would like to pursue a career in medical sciences, technology, scientific research, engineering, horticulture or agriculture, the environmental sciences or the armed forces, then Science is for you.

Whether you have made up your mind about your career or not, you should give Science at Year 11 a serious attempt, and at least one branch of the Sciences at Years 12 and 13. Many employers, including those in law and accountancy, are now asking for graduates who have some science background so that they are able to deal with problems in which specific issues are involved.

-----------------------------	-----------------------------	--	---	--	-----------------------------

SCIENCE

NCEA LEVEL 1

SCI 101

What will I learn?

Science 101 covers a range of areas of Science, including climate change and carbon cycling, designing and carrying out an investigation, electricity and how it plays a role in our lives, basic mechanics, an overview of acids and bases and how they react with each other and other things and genetics – how are things inherited and what role does the environment play on the evolution of a species.

Entry Requirements

A good level of achievement in Year 10 Science or with HOD recommendation. Most Year 11 students will take this course.

How is this course assessed?

BIOLOGY

NCEA LEVEL 3	BIO 301
--------------	---------

What will I learn?

Biology 301 gives an overview of the plant and animal kingdoms. Topics covered include: Research (socio-scientific issue), homeostasis, human manipulations of genetic transfer and its implications, plant and animal responses to their environment, evolution/speciation and trends in human evolution.

Entry Requirements

A minimum of 14 Achievement Standard credits in NCEA Level 2 Biology or HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1

CHEMISTRY

NCEA LEVEL 2

CHE 201

What will I learn?

Year 12 Chemistry covers a range of topics including quantitative chemistry, oxidation and reduction, structure and bonding of compounds, chemical reactivity and organic chemistry. These topics will help one become more aware of our environment and our obligations towards Planet Earth and also our responsibility towards the future survival of the human race.

Entry Requirements

16 credits in SCI101 INCLUDING AS90944 (Acids and Bases) and one other external OR HOD approval. AS 90923 (Plant Propagation) cannot be used towards these 16 credits.

How is this course assessed?

INTERNAL STANDARDS

PHYSICS

NCEA LEVEL 2

PHY 201

What will I learn?

The first laws of Physics were developed in ancient times. Many of these laws hold true today. We will study things like light and waves and how they behave, we look at things like the Physics of getting a rugby ball over the goalposts, how satellites stay in orbit, why atomic bombs are so destructive – but how we can use similar concepts in medicine – and how electricity and magnetism are related. We will also find out about current events in Physics.

Entry Requirements

16 credits in SCI 101 INCLUDING AS 90940 (Mechanics) and one other external OR HOD approval. AS90923 (Plant Propagation) cannot be used towards these 16 credits.

How is this course assessed?

-----------------------------	-----------------------------	--	---	--	-----------------------------

PHYSICS

NCEA LEVEL 3	PHY 301
--------------	---------

What will I learn?

Physics can be thought of as the most fundamental of the sciences. It is concerned with the most basic building blocks of all things - from ants to antennae, from quarks to quasars. We will answer questions like: how does a Police speed camera work? why is it that different musical instruments make different sounds? how does a radio get tuned to different stations (what happens inside the radio?); can we make predictions as to the height of the seawater midtide?; how does alternating current differ to direct current?; and, what was Einstein talking about when he came up with his idea of Relativity? You will learn to think critically and question evidence that is put in front of you.

Entry Requirements

A minimum of 15 Achievement Standard credits in NCEA Level 2 Physics.

How is this course assessed?

SOCIAL SCIENCES

Head of Faculty: Ashley Delaney

GEOGRAPHY AND TOURISM

Teacher in Charge – Sam Keegan

Geography is the scientific and cultural study of the environment as the home of people. It seeks to interpret the world and how it changes over time – past, present, and future. It explores the relationships and connections between people and both natural and cultural environments. Geography investigates the ways in which features are arranged on the earth's surface. It describes and explains the patterns and processes that have created them.

*"The study of geography is about more than just memorizing places on a map.
It's about understanding the complexity of our world."* - President Barack Obama

Students learn to think spatially and use maps, visual images and new technologies, including geographical information systems (GIS), to obtain, present, analyse and evaluate information. Geography skills fall into several categories:

- **Geographic resource interpretation skills** e.g. using maps, statistics, models, surveys.
- **Geographic resource construction skills** e.g. drawing précis maps, constructing graphs.
- **Communication skills** e.g. writing paragraphs or essays, interviewing, using graphic organisers.
- **Social skills** e.g. work in groups, being empathetic, appreciating different values or perspectives.
- **Fieldwork skills** e.g. gathering information from the field such as surveying, measuring.

Geography can be picked up at any level without having studied the previous year's course. At all levels in Geography some part of the course is internally assessed.

Whatever level students take it, geography offers students the opportunity to learn a range of skills and knowledge that they can apply in their everyday lives. Geography can be a pathway to tertiary education and a broad range of careers. A geography job is any work that focuses on location. Although there are few jobs entitled GEOGRAPHER, employers like Geography students because they have a good understanding of the world around them. People who are able to make complex decisions using the above skills are required for a wide variety of occupations. Geography will help you in the following careers:

- | | | |
|------------------------|---------------------|-------------------------|
| • Tourist Officer | • Geologist | • Forest Ranger |
| • Landscape Gardener | • Diplomat | • Farmer |
| • Aerial Photographer | • Export Agent | • Cartographer |
| • Business Manager | • Journalist | • Teacher |
| • Ecologist | • Oceanographer | • Meteorologist |
| • Land Agent | • Town Planner | • Climatologist |
| • Mining | • Surveyor | • Local Government |
| • GIS Computer Systems | • Market Researcher | • Environmental Planner |

Does Tourism interest you? There are 125,000 New Zealanders directly employed in tourism. If you are keen to be part of a very dynamic industry that is currently New Zealand's second largest employer, then perhaps this is for you. The New Zealand Tourism Industry is looking for more "tourist savvy" employees to assist in the hosting of other major events in the future, especially in the wake of the successful 2011 Rugby World Cup and 2015 Cricket World Cup. There are job opportunities in every part of New Zealand – some of the most beautiful parts of our country.

We offer the Service IQ School Programme in Tourism. If students choose to take this subject over two years, they can work towards gaining the New Zealand Certificate in Tourism (Introductory Skills) (Level 2). This Certificate will be replaced with a new qualification, however currently details are still being finalised.

HISTORY

Head of Department: Ashley Delaney

“History is a conversation between the past and the present” E H Carr

There are many excellent reasons why learning History is a good idea:

- You will understand more about why our world is the way it is today. After all, you can't know who you are or where you may be heading, if you do not know your past.
- History is made up of many fascinating characters and stories.
- History extends your critical and creative thinking skills.
- You will learn to interpret historical information from a range of sources.
- You will develop your inquiry skills by learning how to gather information; how to select what information is relevant and how to organise the information with a variety of note making techniques.
- You will learn how to process information, how to tell the difference between fact and opinion and how to recognise different points of view, bias and propaganda.

You will learn how to present and communicate your information in a variety of formats. You will learn how to write accurately, logically and effectively.

- **Careers that History can lead to:**

- | | | |
|----------------------------|--------------------------|-------------------------------|
| • Teacher | • Journalist | • Lawyer |
| • Architect | • Historian | • Diplomat |
| • Researcher | • Town Planner | • Tertiary Lecturer |
| • Author | • Librarian | • Archivist |
| • Anthropologist | • Archaeologist | • Art Conservator |
| • Policy Analyst | • Publisher | • Web Designer |
| • Web Designer | • United Nations Advisor | • Officer in the Armed Forces |
| • Games/Animation Designer | • Film Director/Producer | • Museum/Gallery Curator |

History can be picked up at any level without having studied the previous year's course as long as you meet the prerequisites.

CLASSICAL STUDIES

NCEA LEVEL 3

CLA 301

What will I learn?

- To engage with the literature, religion, art, architecture and culture of the classical world.
- To understand how and why ideas and values of the classical world have influenced other cultures, including New Zealand, over time.
- How to research information, think critically about sources and apply your understanding in different contexts.

You will be offered a choice of topics for Internal Assessments which may include, but are not limited to: classical heroes, death and the underworld, the role of women, images of power, and ancient religion. For the External Assessments you will learn about Alexander the Great and Roman Art and Architecture.

Entry Requirements

A minimum of 15 Achievement Standard credits in NCEA Level 2 English or History or TIC approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91397 V2	Demonstrate understanding of significant ideology(ies) in the classical world.	6								✓	✓	
3	AS91398 V2	Demonstrate understanding of the lasting influences of the classical world on other cultures across time.	6								✓	✓	

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91395 V2	Analyse the significance of a work(s) of art in the classical world.	4							✓	✓	✓	
3	AS91396 V2	Analyse the impact of a significant historical figure on the classical world.	6							✓	✓	✓	

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

University to complete a BA and/or Law degree.

Teacher in charge:

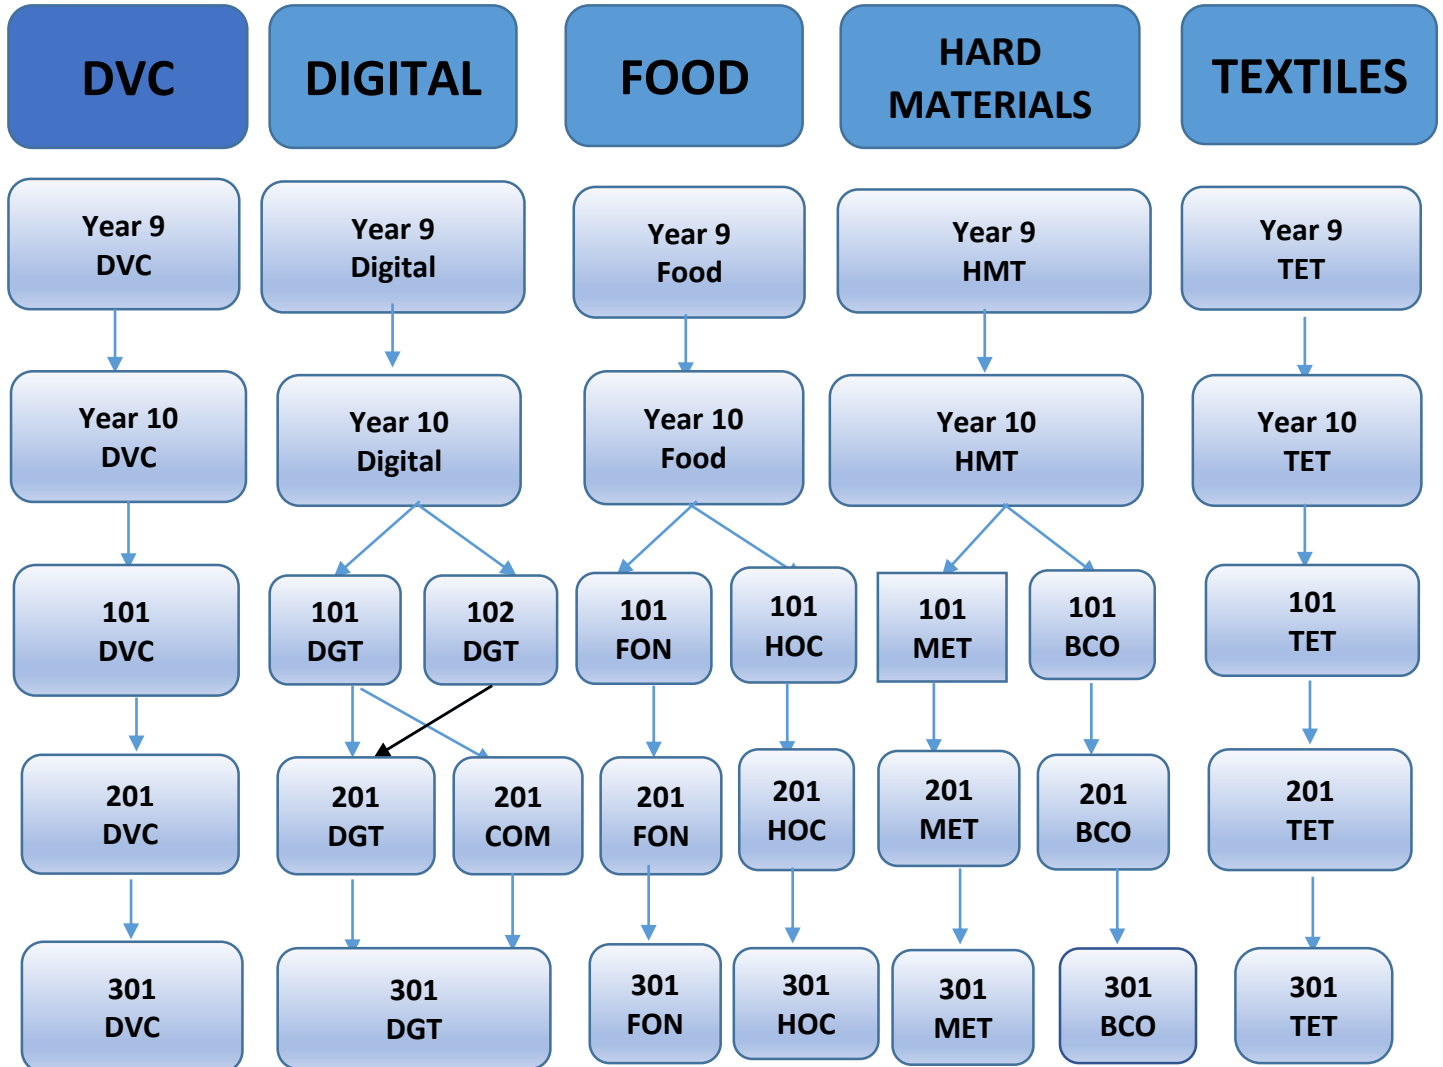

Ms Mulholland

Classical Studies can also be the basis for careers as diverse as: graphic and interior design, information technology, law, marketing, medicine, museums and art galleries, philosophy, politics, teaching, tourism.

TECHNOLOGY

Head of Faculty: Mr Grant Miles

The Technology Faculty offers students 6 subjects with alternative options in 2 of the subject areas. They all offer courses at Levels 1, 2 and 3 for NCEA.

DVC is Design and Visual Communication (formerly known as Graphics)

DGT 101 is an Achievement Standard course and is a more academic course. DGT 102 is a Unit Standard course and is a more practical course. **Students may only enter DGT201 from DGT102 with HOD approval.**

FON is the Achievement Standard foods class. This is a more academic course. HOC is a Unit Standard course and is more practical.

BCO is the Building & Construction class operating at levels 1, 2 and 3 in the Wood area.

****Scholarship options may be available in DVC DGT FON MET TET.**

DIGITAL TECHNOLOGY

NCEA LEVEL 1

DGT 101

What will I learn?

During this course, students will advance their development of a wide range of practical computing, project and design skills. A variety of types of software will be used to develop students' electronic communication and presentation abilities. Students carry out research and design exercises to create solutions to projects. Some foundation level work on computer systems and programming will also be carried out. Use is made of Google apps in this class.

Entry Requirements

A record of good achievement in Year 10 DGT.

How is this course assessed?

DIGITAL TECHNOLOGY

NCEA LEVEL 1

DGT 102

What will I learn?

This course is designed as a practical catch-up for students who have not completed 10 DGT. A number of Level 1 and possibly some level 2 NCEA credits are achievable. A range of application and graphics software will be used to develop your ability to communicate information in an effective manner. Students will carry out research and design processes to create digital based solutions. Some foundation level work on computer systems and programming may also be carried out.

Entry Requirements

Open to any student who has not completed DGT in the junior school.

How is this course assessed?

INTERNAL STANDARDS

DIGITAL TECHNOLOGY: COMPUTING

NCEA LEVEL 2

COM 201

What will I learn?

Computing 201 is desirable for anyone wanting to gain the knowledge and skills for a future involving computers or advanced design and media. This course takes a more computer science and technical approach. Themes covered include computer hardware and systems along with programming in Python. Heavy use of Google apps, mail, forums and sites etc. is an important aspect of this course.

Entry Requirements

14 credits from DGT 101 or program standards.

How is this course assessed?

DESIGN & VISUAL COMMUNICATION

NCEA LEVEL 1

DVC 101

Design and Visual Communication is a course where students develop their creativity, learn about the practice of designing (initiation and developing of ideas), make qualitative judgements (informed decisions on aesthetic and functional aspects of design) and develop a range of drawing (visual communication) skills. Students learn best by doing. Design and Visual Communication therefore adopts an activity-based, project driven approach. This takes place within a design practice where they create, develop and present their own ideas.

Entry Requirements

No Prerequisites

How is this course assessed?

DESIGN AND VISUAL COMMUNICATION

NCEA LEVEL 3

DVC 301

What will I learn?

Design and Visual Communication is where students can develop their creativity, learn about the practice of designing (initiation and developing ideas), make qualitative judgements (informed decisions on aesthetic and functional aspects of design) and develop a range of drawing (visual communication) skills.

Students learn best by doing. Design and Visual Communication therefore adopts an activity-based, project-driven approach. This takes place within a design practice where they create, develop and present their own ideas. This design practice is broadly described and illustrated as Development design ideas, which involve initiating, exploring and refining design ideas that are informed by research. This will lead to the communication of a final solution in response to a given project theme.

Entry Requirements To gain entry to this course, students should have gained at least 14 credits in DVC 201 or HOD Approval. Other students may gain entry at the discretion of the HOD – consultation is required.

How is this course assessed?

HOSPITALITY & CATERING

NCEA LEVEL 1

HOC 101

What will I learn?

Year 11 Hospitality and Catering is a foundation course for hospitality in food. Topics covered include: Identify career pathways in the hospitality industry, prepare and present meat in the hospitality industry, prepare and present fruit and vegetables in the hospitality industry, prepare and present egg and cheese dishes in the hospitality industry, prepare and present hot finger food in the hospitality industry, prepare and present sauce and soup in the hospitality industry, prepare and cook a cake, a sponge and a batch of scones in the hospitality industry, demonstrate knowledge of knife care, use, storage and carrying for the hospitality industry.

Entry Requirements

Preferred that a student has taken a Year 9 or Year 10 FOT Food technology class.
Students must demonstrate safe and hygienic work practices.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	US15919 v5	Prepare and present hot finger food in the hospitality industry.	2								
1	US15920 v5	Prepare and present sauce and soup in the hospitality industry.	2								
1	US15921 v5	Prepare and cook a cake, a sponge and a batch of scones in the hospitality industry.	3								
1	US21059 v4	Demonstrate knowledge of knife care, use, storage and carrying for the hospitality industry.	2								
1	US21058 v4	Identify career pathways in the hospitality industry.	2								
1	US15900 v5	Prepare and present meat in the hospitality industry.	4								
1	US15901 v5	Prepare and present fruit and vegetables in the hospitality industry.	3								
1	US19770 v4	Prepare and present egg and cheese dishes in the hospitality industry.	3								

Notes: Remember you need 10 Level 1 literacy and numeracy credits to gain NCEA Level 1.

Where does this lead to?

HOSPITALITY & CATERING

NCEA LEVEL 2

HOC 201

What will I learn?

Year 12 Hospitality and Catering course is a Unit Standard based course and the Level 2 units offered include: food safety, knives, salads, vegetable cuts, sandwiches and foods cooked by grilling, roasting and frying totalling 18 credits. All units are internally assessed.

Entry Requirements

Year 11 FON 101 or HOC 101 or approval from the HOD.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
2	US167 v8	Food safety	4										
2	US13285 v5	Handle and maintain knives.	2										
2	US13276 v5	Cook food by grilling	2										
2	US13283 v5	Prepare and present salads.	2										
2	US13271 v5	Cook food items by frying.	2										
2	US13278 v5	Cook foods by roasting	2										
2	US13280 v5	Prepare fruit and vegetable cuts.	2										
2	US13281 v6	Prepare and present basic sandwiches.	2										

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

HOSPITALITY & CATERING

NCEA LEVEL 3

HOC 301

What will I learn?

Food safety, hazards and hygiene, food preparation and presentation, nutrition and culinary terms used in the hospitality industry. Year 13 Hospitality and Catering course is a theory-based Unit Standards course. Related practical lessons are offered when applicable. Topics covered include:

- food contamination and the control methods used in a food business.
- basic nutrition.
- Culinary terms used in the hospitality industry.

Entry Requirements

A minimum of 15 Unit Standard credits in NCEA Level 2 HOC 201 including US 167 or HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1

MECHANICAL ENGINEERING

NCEA LEVEL 1

MET 101

What will I learn?

This course will offer an introduction to basic construction skills, including safety, processes, materials, and quality control. You will learn how to use hand and power tools to produce quality metalwork. For students interested in gaining achievement standards with a view to continuing through to level 3, an option to take three complementary standards will be given.

Entry Requirements

No prerequisites for 2023

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1	
										Lit	Num
1	US22926 v2	Demonstrate knowledge of safety procedures in a specific engineering workshop.	2					SR			
1	US22923 v2	Demonstrate basic engineering workshop skills under close supervision.	12					SR			
1	US22924 v2	Develop a simple product using engineering materials.	10					SR			
1	US4433 v6	Select, use, and care for simple measuring devices used in engineering.	2								

Optional Achievement Standards Internal

--------------------------	--------------------------	--------------------------------------	-------------------------------------	--	--------------------------

MECHANICAL ENGINEERING

NCEA LEVEL 2

MET 201

What will I learn?

This course will offer an introduction to basic construction skills, including safety, processes, materials, and quality control. You will learn how to use hand and power tools to produce quality metalwork. One or two projects will be completed over the year.

Product Design Alternative

This course will offer a different learning pathway for students wishing to follow a more creative materials technology experience. The achievement standards here can form a foundation for higher study and possibly lead to gaining credits that support university entry in the following year. All students will follow the engineering course initially covering US4435 and US 4436 as these provide foundational knowledge and training for the use of advanced manufacturing techniques. Students self-select projects for these standards and are not limited to engineering outcomes. The learning focus of these standards lies in problem solving and the application of high-quality construction skills and the ability to communicate their own problem solving processes clearly. Building an electric car in teams is one possible project for product design students.

Entry Requirements

A minimum of 10 credits in MET101 or HOF approval?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1

--------------------------	--------------------------	--------------------------------------	-------------------------------------	--	--------------------------

MECHANICAL ENGINEERING – Product Design

NCEA LEVEL 3

MET 301

What will I learn?

This course will offer an introduction to design, 2D and 3D CAD skills, construction skills, including safety, processes, materials, and quality as well as some digital control. You will learn how to use hand and power tools to produce quality metalwork. You will learn to work in teams and develop the 21st century learning skills desired by industry. You will have the opportunity to be mentored by industrial professionals working in the engineering industry, to go on site visits and to build an electric car to compete in the e velocity competition.

Product Design

This course will offer a different learning pathway for students wishing to follow a more creative materials technology experience. Projects for these standards are not limited to engineering outcomes although the first project will be the development and building of an electric car in teams. Subsequent projects are student choice. The learning focus within this learning programme lies in problem solving and the development and application of high-quality construction skills and the ability to communicate their own problem solving processes clearly to other team members. The opportunity to be mentored by working professionals will give students an insight into a career in engineering from the workshop floor to the design room. Please note while this course provides a pathway to University Entrance it can also provide an alternate assessment pathway for students who may struggle with the achievement standards through the use of Level 3 and 4 core generic unit standards.

Entry Requirements

A minimum of 10 credits in MET101 or by negotiation with the HOF.

INTERNAL STANDARDS

OR : Product Design Course. Internal

VISUAL ART

Head of Department – Rachel Clark

The Visual Arts curriculum at Upper Hutt College provides students with opportunities to explore, challenge, affirm, and celebrate unique artistic expressions of self, community and all cultures. It provides opportunities for student identity to be openly explored, and is inclusive of the forms and practices of customary and contemporary Māori and Pasifika visual arts.

Students in the junior Art programme at Upper Hutt College learn the fundamental elements and principles of art through a highly structured and diverse curriculum; from colour theory, painting, printmaking and sculpture to digital art, design and photography using Photoshop. The junior curriculum prepares students for senior Art specialist subjects by equipping them with a kete full of techniques, experiences and knowledge of a wide range of art making conventions.

In order to enter in Level Two and Three specialist Art courses, students must have achieved Level One Art. Exceptions may be considered where a student demonstrates exceptional art making skills in an interview with the Head of Department.

Level One Visual Arts

Prerequisite for level two and three specialist Visual Art courses

Students explore a range of printmaking, mixed media and painting techniques in order to develop their drawings into a series of final works for their external portfolio.

Levels Two and Three

Specialist studies in level two and three Art ***Painting, Digital Painting, Printmaking, Art Design and Digital Photography*** are more student directed and involve inquiry based learning over the duration of the academic year.

Where students are entered in more than one Visual Art subject, they may use the same theme for their inquiry across both art disciplines for example level two Photography and level two Design.

This approach to the senior art curriculum prepares our young people for a future in the **Creative Industries** via academic or vocational pathways such as:

- Visual and performing arts as artists, technicians or educators
- Museum and gallery curator or management, commercial / fashion photography
- Photojournalism, film / documentary and television
- Design and development of products, including communications, architecture, advertising and publishing, event's organiser.
- Arts-related businesses connected with large industries such as film, television and animation
- Management roles including heritage and cultural advice. Māori and Pasifika culture and identity is fully represented in this pathway. Through working in the creative industries young people can make a difference to individuals, whānau, hapū, iwi, communities and the world at large.
- Work requiring te reo Māori and/or kaupapa/tikanga Māori awareness continue to grow, along with a strong, contemporary Māori arts scene.

Subject Endorsement and University Entry

Students have the opportunity to produce a large body of work and a portfolio at Level Two that becomes a gateway for university entry. We offer Visual Arts Merit and Excellence subject endorsement at Level One, Two and Three and Scholarship at Level Three should a student be a strong candidate. All individual Level Three Visual Arts subjects offer 14 external credits per course and are all university approved subjects.

VISUAL ART

NCEA LEVEL 1

ART 101

What will I learn?

The Visual Art programme aims to develop your skills in using various art making media and techniques such as drawing, painting, mixed media and printmaking. This is to prepare you for the range of Visual Arts disciplines offered in Years 12 and 13. You will develop art ideas around your identity titled *My Place*. All standards involve practical, hands-on tasks with internal standards contributing to the development of the work for the external folio.

Entry Requirements

A good level of achievement in Year 10 Art.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	Level 1

APA 301

What will I learn?

You will engage in a yearlong inquiry exploring a theme and subject of your choosing. Your work will explore current established drawing and painting practice both of contemporary New Zealand and international art. You will develop your critical and fine art skills in drawing, painting, mixed media and printmaking. The two internal standards lead to the external portfolio.

Entry Requirements

A good record of attendance and achievement in Level 2 Art.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91446 v1	Use drawing to demonstrate understanding of conventions appropriate to painting or printmaking	4										
3	AS91451 v2	Systematically clarify ideas using drawing informed by established painting practice	4										
3	AS91460 V2 (optional)	Produce a resolved work that demonstrates purposeful control of skills appropriate to a visual arts cultural context	4										

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91456 V2	Produce a systematic body of work that integrates conventions and regenerates ideas within painting or printmaking practice.	14										

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

Creates strong pathways for a career in the Creative Industries or to tertiary study

PHOTOGRAPHY

NCEA LEVEL 2

PHO 201

What will I learn?

You will engage in a yearlong inquiry exploring a theme and subject of your choosing. Your work will explore current established photographers and photographic practice both of contemporary New Zealand and international art. You will develop your critical and fine art skills using a digital SLR camera. The two internal standards lead to the external portfolio.

Entry Requirements

A good level of attendance and achievement in Year 11 Visual Art or by HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
2	AS91312 v2	Use drawing methods to apply knowledge of conventions appropriate to photography.	4						SR				
2	AS91317 v2	Develop ideas in a related series of drawings appropriate to established photography practice	4						SR				
2	91325 vSR3 (optional)	Produce a resolved work that demonstrates control of skills appropriate to cultural conventions	4										

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
2	AS91322 v2	Produce a systematic body of work that shows understanding of art making conventions and ideas within photography.	12										

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

The department has a computer suite and printer.

This is course is in high demand so it is advantageous to have a digital SLR camera by course confirmation day but is not compulsory.
