

Upper Hutt College

Course Selection Handbook 2026 Year 12 & 13

How to Use this Booklet

Please start by going through the introduction section so you are aware of the process you need to go through for subject selection and the pathways your subjects and potential careers will follow.

Complete the **Choosing your Subjects template** before you enter your subject selections either on-line via the KAMAR Portal on the school website.

www.upperhutt.school.nz OR on the Course Selection sheets provided.

Helpful Hint:

On the following contents page click on the blue title and you will be taken straight to the relevant subject page in the booklet.

INTRODUCTION

This booklet has been produced to help you select the subjects you will study in the following year. It is very important that you select carefully – your future may depend on it. The further you go in the senior school, the more difficult it becomes to change that direction. The very best advice is to keep as broad a range of subjects as possible for as long as possible.

Guidelines for Choosing Senior Subjects

- Keep your options open – choose a spread of courses
- Do something you like, that you are good at and that you are interested in
- Discuss your options with your parents, whanau, teachers, Dean or the Careers Advisor
- To study a particular subject at Year 12 or Year 13 level it is often necessary to have taken it, or a related subject, in the previous year
- Think about what you will be studying in the future beyond school and what is required at tertiary institutions. Do the subjects meet the university entrance requirements? Do they match the university recommended subjects
- Will you meet the course **entry requirements** for the subjects you have chosen?
- For other useful information on choosing subjects, go to the schools careers website.

<https://upperhutt.careerwise.school/page/10>

Helpful Career Information:

If you have an idea of the career, job, degree or further training you are interested in pursuing after college, use the links below to help you research the types of subjects that will be useful to you for these options. If you are unsure of what you want to do in the future, it pays to keep your options open by picking a broad range of subjects. Limiting your subjects too much now will limit your options later. Some of the links below might help you explore or discover options.

HOW IT FITS TOGETHER

PRIMARY INDUSTRIES PI	SERVICE INDUSTRIES SI	SOCIAL & COMMUNITY SERVICES S & C	MANUFACTURING & TECHNOLOGY M & T	CONSTRUCTION & INFRASTRUCTURE C & I	CREATIVE INDUSTRIES C
-----------------------------	-----------------------------	--	---	--	-----------------------------

Courses at Upper Hutt College have some standards that are colour coded based on a Vocational Pathway. Pathways are a way of looking at the courses students are taking at school and where they may lead to in the future either in training and tertiary institutions or the workforce.

NZ QUALIFICATIONS FRAMEWORK

QUALIFICATIONS IN THE SENIOR SCHOOL

THE NATIONAL CERTIFICATE OF EDUCATIONAL ACHIEVEMENT (NCEA)

a. How Does NCEA Work?

NCEA recognises achievement in a wide range of studies. It means schools can offer a broader range of subjects and students can gain credits from standards developed by industry.

To gain an NCEA certificate students must earn credits, by meeting standards in their chosen subject areas. Some standards will be assessed by the external examinations; others will be assessed by internal assessment.

Achievement/Unit standards make clear to teachers, students and parents the standard of work, skills and knowledge necessary to achieve. Students earn credit by fulfilling the requirements of the standard. These standards encourage high expectations. Achievement standards have been designed so that satisfactory work, good work, and truly excellent achievement can be recognised with “Achieved”, “Merit” and “Excellence” grades.

Students will be told how well they have performed in each part of each subject with marks for both externally examined components and internally assessed work.

b. Requirements for Achieving NCEA

NCEA Level 1

Students need to gain 80 credits at Level 1 and will need to have gained the compulsory corequisite of 10 credits in literacy **and** 10 credits in numeracy within this 80 credits. Note - (there are some additional achievement standards that can be used to achieve the NCEA co-requisite)

NCEA Level 2

Students need to gain 60 Level 2 credits. (Students must also meet the requirements of Level 1 literacy and numeracy).

NCEA Level 3

Students need to gain 60 Level 3 credits. (Students must also meet the requirements of Level 1 literacy and numeracy).

Endorsements

Students may gain Certificates with either Merit or Excellence endorsement or a course endorsement.

- Merit: at least 50 Merit or Excellence credits
- Excellence: at least 50 Excellence credits

Course Endorsement - when a student gains 14 credits or more in one subject (at least 3 credits must be external and 3 credits must be internal) they will gain an Achieved, Merit or Excellence course endorsement.

Gaining credits at the Merit and Excellence level of achievement is now an advantage when applying for most New Zealand universities and some are offering monetary rewards for endorsements.

Scholarship

Scholarship is externally assessed. It is designed to extend the very best students and to financially reward very able students who are going on to tertiary study. It is not a qualification. Students sitting Scholarship will be assessed on their ability to think laterally and in the abstract. The exams cover the same knowledge and skills as NCEA Level 3 achievement standards, but the standard of performance required is much higher.

(See www.nzqa.nz/scholarship/index.html)

Record of Learning

All credits students gain are recorded on their Record of Learning. They can be accessed on their learner logon on the NZQA website at <https://www2.nzqa.govt.nz/login/>

UNIVERSITY ENTRANCE REQUIREMENTS

Universities and other tertiary institutions set their own entry criteria for their courses. If you intend heading in that direction you need to do some research before selecting courses for Years 12 and 13.

Students will need to do ALL of the following to be awarded UE:

- attain NCEA Level 3
- achieve 14 credits at level 3 in **each of three subjects from the list of approved subjects**. (see the box below)
- achieve UE numeracy - 10 credits at Level 1 and above from specific achievement standards, or three specific numeracy unit standards
- achieve UE literacy - 10 credits (five in reading and five in writing) at Level 2 and above from specific standards.

NB: Auckland University requires 17 credits of English at Level 2 or 3

Approved subjects for University Entrance offered at this school are:

Accounting	History
Biology	Japanese
Calculus	Mathematics
Chemistry	Media Studies
Classical Studies	Music Studies
Dance	Painting (Practical Art)
Design (Practical Art)	Photography (Practical Art)
Digital Technologies/Computing	Physical Education
Drama	Physics
Economics	Science
English	Statistics
Geography	Te Reo Maori
Health	Textiles (processing technologies)

University Specific Entry Conditions – Guaranteed Entry Scores

Most New Zealand Universities are now introducing an enrolment policy that will determine your selection into an academic programme. At Victoria University the Guaranteed Entry Score from NCEA is 150 points for all undergraduate degrees with the exception of Architectural Studies and the Bachelor of Building Sciences.

How to calculate your NCEA rank score:

- Your rank score will be based on your 80 best credits in University Entrance approved subjects at level 3 or higher, and weighted by the level of achievement. You can count both achievement standards and unit standards
- All Level 3 or higher approved subjects can be counted.
- A maximum of 24 credits in each subject may be counted
- If you have achieved fewer than 80 credits at level 3 or higher the rank score will be based on those you have achieved.
- You are advised to take **approved subjects and achievement standards** wherever possible in your school programme both for entrance purposes and as the best preparation for university study.

Your rank score will be calculated by awarding points as follows:

Excellence	4 points
Merit	3 points
Achieved	2 points

If you have any further questions on NCEA or require assistance, please contact your Dean or Ms Van Maren (the NZQA co-ordinator). For full details on NCEA the following link will be useful:
<http://www.nzqa.govt.nz/qualifications-standards/qualifications/ncea/understanding-ncea/how-ncea-works/>

CHOOSING YOUR SUBJECTS

What do I need to do?

COMMERCE DEPARTMENT

Teacher in charge – Julie Sayers

Introduction

Senior subjects offered in the Commerce Department include:

- Economics
- Business Studies
- Financial Literacy Skills

If you like money (both making it and spending it) then our subjects are for you!

Skills and Learning

Taking a Commerce subject will allow you to develop some of the following

knowledge, skills, experiences and **attitudes** that allow you to:

- learn how to budget, manage and track your own income and spending
- prepare, process and understand financial records for businesses and organisations
- explore how changes in the economy could affect individuals and groups in society
- understand how values affect the decisions different individuals and groups
- work collaboratively with different groups of people, both other students the wider community
- use digital technologies to research, analyses and present information
- develop entrepreneurial and business management skills

Career Pathways

Studying Commerce will give you the skills and knowledge to pursue careers in any industry – every organisation or company needs business experts in order to grow!

Commerce specific career pathways include:

- Accounting and financial management
- Advertising, sales and marketing
- Economics and government policy
- Human resources (employment and management of workers)
- Production and organisation
- Management and entrepreneurship (owning or running a business)

ECONOMICS

NCEA LEVEL 2

ECO 201

What will I learn?

This course offers students Economics standards that while preparing students for further studies in Commerce also provide an overview of several critical issues around Aotearoa. This will include analysing unemployment issues and government policies that aim to either increase efficiency or increase equality.

Entry Requirements

A minimum of 14 Achievement Standard credits in both NCEA Level 1 Maths and English and CMM101. Students cannot study ECO 201 and FLT 201 in the same year.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91225 v2	Economics: Analyse unemployment using economic concepts and models.	4								✓
2	AS91227 v2	Analyse how government policies and contemporary economic issues interact	6								✓

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91222 v2	Analyse inflation using economic concepts and models	4								
2	AS91224 v2	Analyse economic growth using economic concepts and models	4								

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

These standards may be subject to changes

Where does this lead to?

Level 3 Commerce – ECO 301

or

Level 3 Business Studies – BST301

-----------------------------	-----------------------------	--	---	--	-----------------------------

BUSINESS STUDIES

NCEA LEVEL 2

BST 201

What will I learn?

In this level of Business Studies, we will conduct market research for a new or existing product to see how the market will respond to that product. We will comprehensively plan for a business activity, learn the use of Māori business concepts to explain what is happening in a business and refine a business plan. We will collect evidence about the motivation practices in a business from a range of sources and find out how businesses motivate employees to work towards business goals. We will also learn about the internal operations of a large business. This subject will prepare you for working in any business in New Zealand and give you an understanding of the roles business play in our society.

Entry Requirements

Level 1 Business Studies or Level 1 Commerce or at the discretion of the Teacher in Charge.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS90846 v2	Conduct market research for a new or existing product	3								
2	AS91868 v1	Demonstrate understanding of cash flow forecasting for a business.	4								
2	AS90847 v2	Investigate the application of motivation theory in a business	3								

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										WR	R
2	AS90843 v2	Demonstrate understanding of the internal operations of a large business	4								
2	AS90845 v2	Apply business knowledge to a critical problem(s) in a given large business context.	4								

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

Commerce Level 3 and/or tertiary study
Employment in a variety of businesses

Teacher in charge:

Mrs Sayers

FINANCIAL LITERACY

NCEA LEVEL 2	FLT 201
--------------	---------

What will I learn?

This course is designed to give you an understanding of how to manage your own finances once you leave home. You will explore potential scenarios that could have a positive or negative impact on your finances, and then learn how to make a budget to reflect these changes. You will also investigate different insurance types and providers and different situations these will be applicable to.

Entry Requirements

Open entry but students should have an interest in learning how to manage their personal financial literacy and plan their future financial literacy. Students cannot study FLT 201 and CMM 201 in the same year.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	US28092 v3	Analyse the effect of significant life events at different life stages on personal financial income.	3								
2	US28094 v3	Produce a balanced budget and adjust the budget to reflect changing financial circumstances.	3								
2	US28096 v3	Evaluate and select insurance product types in relation to events for personal finances.	3								
2	US28097 v2	Analyse and select banking products and services in relation to personal finances	3								
2	US18237 v3	Perform calculations in a tourism workplace	3		SR						
2	US28095 v4	Explain personal financial savings and investment options	3		SR						

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: (This is not a university entrance pathway course)

Where does this lead to?

Life Skills to be financially independent.
This course complements the Pathways Programme.

Teacher in charge:

BUSINESS STUDIES

NCEA LEVEL 3

BST 301

What will I learn?

In Level 3 Business Studies students will gain knowledge skills and experience to analyse how and why New Zealand businesses operating in global markets make operational and strategic decisions. Businesses in a global context is a progression from learning about big businesses in Level 2, and small businesses in Level 1. Learning themes at Level 3 are business functions; people in business; business management and the business environment. Students will also learn about related concepts in te ao maori, such as tikanga, putake, turanga, kaitiakitanga, and rangatiratanga, and their connection and application in modern New Zealand businesses.

Entry Requirements

14 credits in Level 2 Business Studies or Level 2 Commerce or at the discretion of the Teacher in Charge.

How is this course assessed?

DANCE

Head of Department: Ms Donna Devaroe

'Dance is the hidden language of the soul.' – Martha Graham

Why study dance?

Education in dance is fundamental to the education of all students. Education in dance promotes personal and social well-being by developing self-esteem, social interactions, and confidence in physical expression. It aims to foster enthusiasm as participants, creators, viewers, and critical inquirers and to develop a lifelong interest in and appreciation of dance.

What skills will be gained?

- You will be developing your practical knowledge in dance. As you learn different technical aspects of different genres you will become a more confident and able dancer and choreographer.
- You will be challenged in terms of developing ideas for choreography and this ability to be able to engage with tasks in a creative and imaginative manner will help in other aspects of your life.
- You will learn to engage, reflect and analyse dance works. Being able to both critique and take other people's criticisms of your work will improve analytical capabilities in all subject areas.
- You will learn how to view dance works and understand them in context. You will come to appreciate that dance is firmly rooted in tradition yet constantly evolving to reflect changes in contemporary culture.

Careers that Dance can lead to:

- Dancer in a major arts organization, such as a ballet company, opera house or musical theatre company
- Choreographer for those same organisations
- Notator to preserve the choreography and repertoire for those companies
- Dancer in a large-scale theme park or Las Vegas production, or smaller productions on a cruise line
- Dancer for music videos and commercials
- Choreographer, trainer or coach for music videos
- Marketing and public relations for a dance company
- Web design and social media management for a dance company
- Grant writing, development and finance for arts organisations
- Artist management and representation
- Arts facilities operations
- Special events planner for a ballet company or arts organisation

DRAMA

Head of Department: Jason Towersey

Why choose Drama?

Drama encourages *creativity and self-expression*, as well as *problem solving skills*.

Drama requires students to work in large and small groups, so helps them develop their *people skills*.

Drama develops students' *confidence*, as it requires them to perform in front of audiences.

Each level performs their own Production in front of a paying audience.

Drama teaches students about *the wider world*, through the plays they study and perform. Plays are taken from a variety of time periods and cultures. Students have the opportunity to attend a variety of professional theatre performances through the year.

Drama develops students' *literacy skills*, through reading, writing and performing of written scripts.

Drama has an *academic* dimension, with a written exam at each level. Level 3 Drama is a University Entrance subject.

Drama caters for a wide *variety of learning styles*.

Drama is often *fun*.

ENGLISH

Head of Department: Jonathan Martin

The English Department offers senior students the opportunity to consolidate the skills they have been developing in the junior school. These skills will equip them for their professional and personal lives beyond school. Success in English is fundamental to success across the curriculum.

Students work to:

- Communicate clearly and effectively
- Demonstrate sound written skills
- Speak clearly and with confidence
- Understand the skills of visual communication
- Become independent learners
- Develop their critical thinking abilities
- Understand how language works
- Appreciate and enjoy texts

English is a compulsory subject at Year 11 and 12 level. Students will be placed in classes by the English Department in consultation with the English HOD.

ENGLISH

NCEA LEVEL 2

ENG 202 VISUAL ENGLISH

What will I learn?

Students taking this course should have good writing skills and an interest in visual texts. Students are expected to write practice essays for the external exam. This course consists of four internally assessed Achievement Standards. Unit Standards could be offered to students who cannot complete all of the Achievement Standards. By the end of the year, students should be able to analyse and respond to visual texts. Students will write a research report and a report on connections between texts, deliver a speech, analyse a film extract write a film essay and complete a writing portfolio. Some students could be entered into the film external at the end of the year (AS 91099 – Analyse specific aspects of studied visual or oral text(s), supported by evidence)

Entry Requirements

15 credits from ENG101 or ENG102 or HOD approval including at least 10 Level 1 English Achievement Standard credits.

Note: Students intending to go to University should choose ENG 201. However, a pathway to University Literacy is still available in ENG 202 through two of the Achievement standards, plus other subjects offering reading literacy credits. Some students may have to complete their reading literacy requirements the following year in ENG 302 and /or other subjects.

English For Academic Purposes (ESL)

Head of Department: Ms Van Maren / Ms Lee

The ESL Department offers English language courses for international students and for some students living permanently in New Zealand who do not have English as their first language and whose level of English is not high enough for them to attend classes offered by the English Department.

The nature of these courses depends on the ability of the students, their length of time in New Zealand and their educational goals.

Course placement follows testing by the ESL Department and discussion with students about their goals.

The Year 11 and Year 12 English for Academic Purposes courses aim to bridge the gap these students will find between their present level of English and the language they will encounter in their other subjects and to lay a foundation for developing their academic language skills. These courses will also help learners develop the social language they need at school and in the wider community. They provide students with the opportunity to gain NCEA standards at Levels 1, 2 and 3. Some students also have the opportunity to gain Level 1 and 2 Literacy credits.

YEAR 11-12 ENGLISH FOR ACADEMIC PURPOSES

EAP101

The Year 11 English for Academic Purposes course is for students who are at an pre-Intermediate (Independent) level on the Common European Framework of Reference (CEFR). The course will include some of the following, depending on the needs of the students: Reading Comprehension, Writing Reports and Writing Recounts.

The Year 12 English for Academic Purposes course is for students who are at a Intermediate (Independent) level on the Common European Framework of Reference (CEFR). The course will depend on the specific needs of the students but will have a focus on developing literacy skills for tertiary studies.

Both courses will offer credits towards NCEA at either Level 1 or Level 2. Provision will also be made for those students wishing to prepare for international examinations such as IELTS.

OTHER ESL COURSES for students requiring extra English support.

In addition to this course, we also offer other English Language (ESL) courses. These can be at any level. They may be for students at a lower level than the English for Academic Purposes courses or they could be for those same students who require additional ESL assistance. These classes focus on subject support and language extension.

HEALTH

Head of Department: tbc

Why Study Health Education?

By studying Health, you will develop the competencies to become resilient, confident, connected, actively involved, lifelong learners, ready to contribute to the future well-being of New Zealand

What is Health Education About?

- It is about learning to accept and see differing perspectives to an issue
- Being aware of the main ethical issues New Zealand faces
- If someone has a problem, looking at the determinants and factors that may have made the person that way for example, learning not to judge someone, and helping by finding the cause, not just curing the disease

Learning in Health Education

- Supports personal growth
- Challenges thinking about what is fair and just
- Builds resilience and explores issues
- Develops skills for health promotion
- Creates learning pathways

Careers that Health can lead to:

- Education
- Psychology
- Sociology
- Philosophy
- Politics
- Law
- Economics
- Medicine
- Health
- Justice
- Social Services

INTERNATIONAL LANGUAGES

Head of Department: Haley Charles

Languages are optional at all levels. It is not possible to take a language in the senior school if you have never studied it before. The longer you continue to learn a language the more fluent you will become and the more useful it will be for your future.

Why learn another language? (Adapted from NCEA New Curriculum – Languages)

By engaging with learning another language, you will develop the ability to communicate in another language and connect meaningfully with people in different communities around the world.

Languages and cultures play a key role in developing personal, community, national, and global identities. Through language learning, you can learn how to engage with the world around you in appropriate ways and become global citizens. As you acquire the skills of both communicative and intercultural competence, you reflect simultaneously on your own personal identities and explore your own culture(s) from a new perspective.

You are encouraged to use your own cultural kete to enrich your learning. You will discover and make connections to the rich history, customs, and cultures of the communities in which the target language is spoken. You also have opportunities to make linguistic and cultural connections with Māori and Pacific cultures. By engaging in another language, you will learn that each language has its own way of expressing meaning, and that each has intrinsic value and special significance and mana for its users.

Language learning is both an individual and collaborative process. You are encouraged to foster rangatiratanga by taking ownership of your language learning. You will work together in highly collaborative environments with fellow language learners towards the common goal of language acquisition.

By engaging in another language, you will gain skills and knowledge that can lead to, and support, a wide range of pathways. The ability to communicate in more than one language helps you stand out. You with the knowledge of an additional language demonstrate that you are committed to your learning and are interested in the world beyond your own. This is a considerable advantage and enhances employability in any career.

Skills and knowledge gained in learning another language include:

- increased cultural competence and global awareness
- communicative capabilities and interactive strategies
- understanding structure in thinking and communication
- enhanced creativity and problem-solving skills
- increased understanding of successful learning methods
- an appreciation of diverse backgrounds, experiences and perspectives
- an additional context to embed and enhance literacy and numeracy competencies.

JAPANESE

NCEA LEVEL 2

JPN 201

What will I learn?

In this course, you will learn to communicate more effectively in Japanese, build on your knowledge of Japanese vocabulary, grammar and structures, and understand more of Japanese life and culture. The Level 2 Japanese course covers Level 7 of the New Zealand Japanese Curriculum. By the end of the year, you will use Japanese variably and effectively to express and justify your own ideas and opinions, and support or challenge those of others, as well as responding critically to texts.

Japanese studies at Level 2 involve three strands, i.e. **communication, language knowledge and cultural knowledge**

Communication: communicate information, ideas and opinions through increasingly complex and varied texts, explore the views of others, developing and sharing personal perspectives

Language Knowledge: analyse ways in which Japanese is organized in different texts and for different purposes, explore how linguistic meaning is conveyed across languages

Cultural Knowledge analyse ways in which Japanese culture(s) is (are) organized for different purposes and for different audiences, analyses how the use of Japanese expresses cultural meanings

Entry Requirements

A minimum of 9 Achievement Standard credits at the previous level or HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy

Ki ngā hau tapu, tawhitō

Ki nga kawai rangatira tuturu

Ki nga toto Ariki o nga Atua

Ki nga maunga kōrero, karanga, karakia

Ki nga awa manawa, manaaki, tiaki a tatou

Ki nga hapu, nga whanau

Tena koutou, tena koutou, tena koutou katoa

Languages are optional at all levels. It is not possible to take Te Reo Māori in the senior school if you have not studied it before.

Why is Learning Te Reo Māori important:

Te Reo Māori is the language indigenous to Aotearoa. Everyone has the opportunity to learn Te Reo Māori. By learning Te Reo Māori young New Zealanders can become much more aware of the role that Māori identity, language and culture play in our countries identity.

Why learn Te Reo Māori:

Effective communication in another language is more than simply using different words to convey a message, and it involves more than learning. It is about helping students to explore, the beliefs, values, and patterns that shape the Māori interpretations of this wider, changing world. For some students this will be an opportunity to explore their own Māori identity, language and culture.

Taking Te Reo Maori will help in the following careers:

Te Reo Māori is offered in all Universities and Tertiary institutes in New Zealand. Many aspects of Te Reo Māori are helpful in, Mahi Toi, creative arts, communications, Media studies including presenters, Te Karere, Waka Huia, Documentaries, Journalism, Newspaper writer, tourism, treaty negotiations, local and national government etc.

Cross cultural skills will be a necessity for all New Zealanders as our country continues to diversify culturally as we welcome increasing numbers of tourists, students and migrants from other countries.

Kia ora mai tātou.

MEDIA STUDIES

Head of Department: Zondree Pierre

Introduction

is an academic subject that focuses on the active exploration, analysis, creation, and enjoyment of the media and its products. Media Studies at Upper Hutt College has a strong focus on film media, although students will also be exposed to other media such as television, print and the Internet.

Media Studies examines the role of the media in society, how the media constructs messages about individuals, communities, and cultures and how media products are produced, controlled, and distributed.

Through Media Studies students gain the knowledge and skills to conceive, plan, design and make media products that engage audiences. You can view some of products at youtube.com/uhcmedia.

Why choose Media Studies?

During our courses you will:

- Develop expertise in creating and producing media products (music videos, commercials, trailers, news items, short films)
- Improve Research Skills
- Improve higher-order thinking skills
- Participate in project-based learning experiences
- Learn to use hardware and software related to audio-video manipulation
- Work with stimulating and creative ideas

Where Can Media Studies Lead?

Media Studies is major at all major universities around the world. It is also a strong part of creative arts, communications and commerce. Media Studies can lead to careers in any aspect of the media including; TV presenter, radio broadcaster, film editor, producer, communications manager, marketing manager, PR director, copywriter, scriptwriter, reviewer, journalist, magazine or newspaper writer or editor. Media Studies also leads into tertiary study in university and other tertiary institutes for courses in Media Studies, Film and Television, Animation, Creative Arts, Psychology, Linguistics Communications, Sociology, Law, Literature and film studies.

What Media Studies options are available at UHC?

Year 12 Media Studies (NCEA Level 2)

Year 13 Media Studies (NCEA Level 3)

Prerequisite: For guaranteed entrance to Level 2 Media Studies students need 10 Achievement Standard Credits in NCEA Level 1 English OR 15 Credits in NCEA Level 1 Drama. For guaranteed entry into Level 3 Media Studies students need 15 Credits in NCEA Level 2 Media Studies.

If these requirements are not met, entrance to the courses are at the Head of Department's discretion.

Assessment: Assignments and portfolios will be assessed for NCEA Level 2 & 3 Achievement Standards.

-----------------------------	-----------------------------	--	---	--	-----------------------------

MEDIA STUDIES

NCEA LEVEL 2

MED 201

What will I learn?

Throughout the year you are going to be exposed to different film types and genres. You are going to learn how to decode music videos and films, how to critically analyse and interpret the multi layered information embedded within them. You will have the opportunity to make your own media products, including a commercial and a music video. You will analyse how film genre is shaped by and changes with the society in which it is created, and you will analyse the causes and effects of how groups are represented in the media.

Entry Requirements

10 Achievement Standard credits in NCEA Level 1 English OR 15 credits in Drama OR by HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy

MUSIC

Head of Department: Ofisa Taeao

Why take Music?

Music studies at school are not just for students who wish to follow a career path in Music. Skills and key competencies learnt in this discipline are transferable to a wide range of careers. Research has shown that students who take Music develop more self-confidence, are conditioned to work hard for results, are more creative, and are better at problem-solving and analysing patterns, they can work better in a group, and connect more easily with others.

Credits in Level 3 Music carry just as much weight for University Entrance as any other subject and are valued by many other disciplines. For example:

"I am a strong advocate for the role of music for health professional students. Apart from producing more well-rounded professionals who can engage more widely with life in general, the transferable skills that come with a musical background are invaluable." **Prof Sunny C Collings, Dean and Head of Campus, University of Otago, Wellington**

"A number of our best law students have studied music to a senior level. I have no doubt that the discipline required to study music and the brain development which the study of music enhances are a major asset for studying law and other disciplines."

Professor Mark Henaghan, Dean of Law, University of Otago

Music is not only a path to a career as a musician, but also a path to many other careers:

- Acoustics engineer
- Artist manager
- Arts administrator/arts management (includes grant writing and fundraising, managing events, arts advocacy, programming, house manager)
- Audio production (editing, audio engineering, audio development)
- Composer (professional and school band/orchestra; film/TV/gaming; educational publishing; children's music; religious music; musical theatre; commercials)
- Cruise ship entertainer
- Educator
- Electronic production and design (including audio engineering, mastering, mixing, music directing, producing, program directing, programming, recording engineer, studio manager, MIDI technician)
- Entertainment lawyer
- Event production
- Film, TV, gaming music
- Fundraiser, grant writer
- Instrument repair and restoration
- Lyricist
- Marketing
- Media development
- Music app developer
- Music critic, reviewer, blogger
- Music licensing
- Music programmer (for events, clubs, restaurants)
- Music publishing (online and print writing, copywriting, editing, managing, proofreading, publishing, researching)
- Music therapist
- Music web producer
- Musicologist
- Personnel Manager (orchestras, arts organizations, shows, events)
- Producer
- Promoter
- Public relations agent or coordinator
- Radio (announcing, librarian, manager, programming, research, station broker)
- Recording (producer, engineer)
- Religious music – sacred music
- Royalty analyst, royalty accountant
- Session musician
- Software developer
- Songwriter (including composer, lyricist, producer; jingle writing for television, radio and internet; freelance work; librettist)
- Sound engineer or technician

MUSIC

NCEA LEVEL 2

MUS 201

What will I learn?

Music 201 builds on skills and knowledge gained in MUS101. You will develop your composition and performance skills in both group and solo performance. You will deepen and extend your knowledge of composers and music theory in order to prepare for further study at Level 3. There is an option to investigate an aspect of NZ Music that interests you as well as complete an external. There is also an option to gain credits in Music technology. Technology standards will be only offered after consultation with the teacher. Please note: **You must not exceed 26 credits when selecting your course.**

Entry Requirements

Previous study of Music in Year 11 and at least 3 years' instrumental tuition. Students should have gained AS91090. Students wanting entry who have not done Level 1 Music will be assessed on a case-by-case basis at the discretion of the HOD. Students must be prepared to enrol in Itinerant tuition and commit to regular practice on their instrument/ voice in their own time. Students will also need to include Group performance rehearsal time into their time management plans.

How is this course assessed?

MUSIC	
NCEA LEVEL 3	MUS 301

What will I learn?

Music 301 builds on skills and knowledge gained in MUS 201. This is an opportunity to start specialising in the area of music you are most interested in. You can choose standards which reflect your strengths and future career plans. Technology standards are available but will only be offered after consultation with the teacher. Please note: **You must not exceed 24 credits when selecting your course.**

Entry Requirements

Previous study of Music at Year 12 including gaining a minimum of two Achievement Standards from 91270; 91271, and 91276 and at least 4 years' instrumental tuition. Students wanting entry who have not done Level 2 Music will be evaluated on a case-by-case basis at the discretion of the HOD. Students must be prepared to enrol in Itinerant tuition and commit to regular practice on their instrument/ voice in their own time. Students will also need to include Group performance rehearsal time into their time management plans.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91416 V2 OR AS91419 V2	Perform two programmes of music as a featured soloist. OR Communicate musical intention by composing three original pieces of music	8								
3	AS91418 V2	Demonstrate ensemble skills by performing two substantial pieces of music as a member of a group.	4								
3	AS91425 V2	Research a music topic	6								

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91421 V2	Demonstrate understanding of harmonic and tonal conventions in a range of music scores.	4								

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Learning Resources that are Highly Recommended. If students have access to laptops, Noteflight, Ableton software for PCs and Garage Band on Macs are highly recommended.

Where does this lead to?

Further tertiary study at University.

Teacher in charge:

Mr Taeao

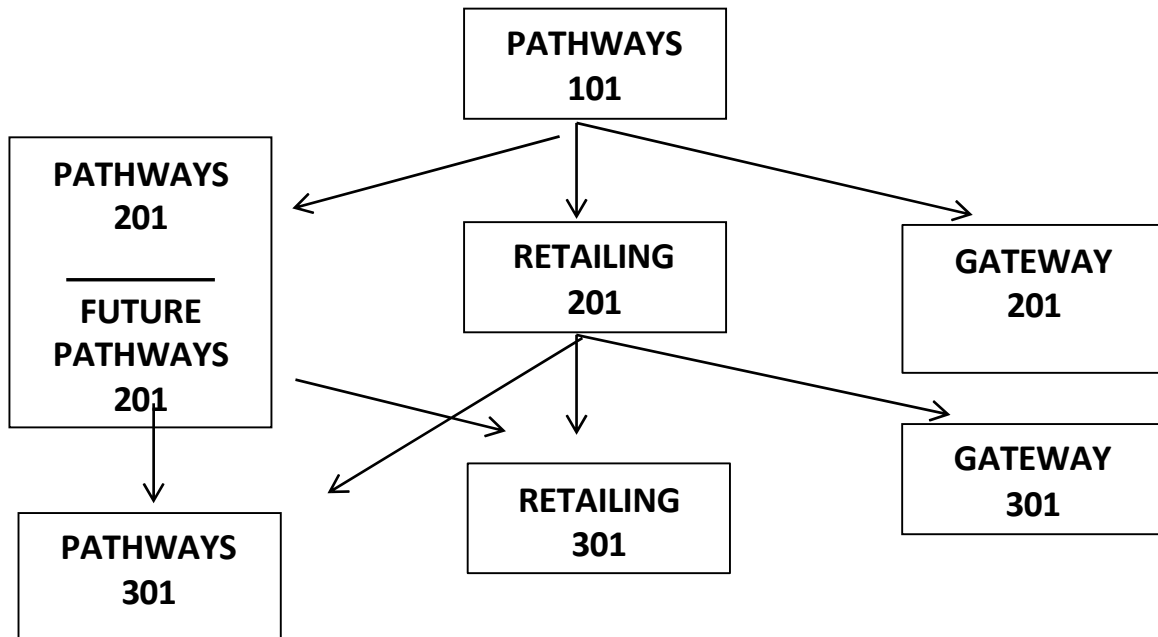

PATHWAYS

Head of Department: David Murden

Pathways, Retail, Gateway, Future Pathways

The Pathways Department offers the following courses:

Pathways, Future Pathways, Gateway, Retail

Pathways

The Pathways courses are aimed at students who wish to take a purely internal based course and will include a variety of internal level 1, 2 and 3 Unit Standards based on life skills and career pathways. The areas covered are not eligible for UE.

Gateway

The Gateway Programme is offered at Upper Hutt College to selected students from the senior school. Gateway is a programme which opens pathways for students from school to the world of work. This is an opportunity for students to blend school study with workplace learning and experience, whilst trying out potential career paths. Entry Requirements include a completed application form, Curriculum Vitae and attend a Gateway interview.

Retail

These courses provide students with a chance to learn customer service, sales and business skills in a retail context. A selection of Level 2 & 3 unit standards are provided and students are rostered to work with barista trainees, serving customers in the school cafe - The Beanie.

Future Pathways

This course is suited to students who do **not** intend to return to school for Year 13 and want to begin their career pathway. Entry will require the student to submit an application to the relevant tertiary organisation and gain successful entry into their course. Students will attend school for 3 days a week and their course for the other two days. All students interested in this course must talk to the HOD, complete an application form and attend an interview

FUTURE PATHWAYS

NCEA LEVEL 2

FUT 201

What will I learn?

This option is for students who have a genuine interest in one of the career pathways listed below.

Please note there may be changes to courses offered for 2026.

Most students who take this option will attend a polytechnic, WelTec Trades Academy or Primary ITO Farming for 1 or 2 days a week completing their course. You will be learning information and skills and completing practical's specific to that career option. In the other three days at school you will complete five other subjects including 201 Pathways

Entry requirements

All students must register their interest with the HOD Pathways, Mr Murden, and need to complete a separate application form to the training organisation and attend an interview

To be considered for the WelTec Trades Academy you need to have gained approximately 50 credits towards your NCEA Level 1 including the 10 numeracy and 10 literacy credits.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Possible Options/Careers	Credits	PI	SI	S&C	M&T	C&I	C
2	Subject specific	Construction Trades	Approx. 40					SR	
2	Subject specific	Engineering and Automotive.	Approx. 40				SR

RETAILING

NCEA LEVEL 2

RET 201

What will I learn?

This class is designed for those students wishing to explore careers in the retail / customer service industries. It is a requirement that students in this course work in the student operated Coffee Shop as all assessments are based on knowledge of the operation of the shop, most have a practical component which must be completed in The Beanie with Mr Murden.

You will learn

- selling and positive customer service skills
- applying safety practices at The Beanie
- the skills required to make buying decisions
- the ways theft and fraud occur in a workplace

Entry Requirements

This course is designed for students who have or wish to obtain employment in the Retail / Customer Service sector and who are able to work independently.

Students are required to work in the Beanie on a rostered basis.

How is this course assessed?

PHYSICAL EDUCATION

Head of Department: Stu Berkeley

The Physical Education Department offers senior students many opportunities to extend and develop the skills introduced in the junior school. Many of you will already be involved in sport at Upper Hutt College. Study in one or more of the courses listed here will give you the chance to relate actual experiences to formal study and help improve understanding, performance and, most of all, enjoyment of physical activity.

Careers: Choosing to study Physical or Outdoor Education in senior school can be the first step on an exciting and worthwhile career pathway. Some of the more common career possibilities are listed here:

*Sports Coach
Dancer
Personal Trainer
Recreational
Adventure Tourism*

*Physiotherapist
Sports Manager
Sports Nutrition
Outdoor Instructor
Mountain Guide*

*Teacher
Sports Medicine
Refereeing
Sports Journalism
Event Management*

Even if you are unsure about the value of studying Physical Education in senior school you can be certain that understanding about healthy exercise lifestyles can set you on the course to lifelong health benefits and physically active lives – something none of us can afford to miss out on.

The Courses: All of the courses described here do require students to undertake formal study in Health, Physical or Outdoor Education. The Year 9 and 10 courses were almost exclusively practical in nature, so students will need to quickly accept that senior school study in these subject areas will be much more rigorous and academically demanding. Students will be required to undergo formal assessment at regular intervals throughout the school year. Some standards are taught across courses and students who choose to do 2 PE courses will only be eligible to gain the credits from one standard.

Before you make any decisions please make sure that you check the prerequisites for the courses. For some courses you will be required to have gained a minimum number of credits from another course and/or passed a specific Standard in order to proceed to the next level.

**All Senior PE classes require students to have full UHC PE uniform for all practical sessions.
Students can take a maximum of two PE based courses.**

PHYSICAL EDUCATION

NCEA LEVEL 2

PED 201

What will I learn?

This course will comprise of NCEA Level 2 Credits in Physical Education. The course includes the following areas of study; Biomechanics & Functional Anatomy, Sociology of Sport, Exercise Physiology, Skill Learning & Sport Psychology and Lifestyle studies. Study in Year 12 Physical Education will prepare students for a career in the Health and Fitness Industry, and will equip them with the foundations for further study at tertiary level.

Students considering this course should be prepared to spend much of their time in the classroom, although there is a practical component requiring generally high performance standards.

Entry Requirements

- A minimum of **15** Credits at NCEA Level 1 Physical Education.
- Must have gained at least an Achieved in AS92019.
- Head of Department discretion.

ADVENTURE EDUCATION

NCEA LEVEL 2

ADV 201

What will I learn?

This Course focuses on equipping students with the knowledge and skills to pursue a passion for the outdoors. The course comprises of key themes; Bush, Rock, Bike and River. Students will participate in activities including Navigation, Rock Climbing, Adventure based learning, tramping and rafting.

Students considering this course should be prepared to engage in theoretical concepts in the classroom that will allow them to increase their ability to pursue adventure in the outdoors. Students must also understand that this is a restricted numbers course, and as such students will be expected to maintain a high level of discipline or else they put their place at risk.

Entry Requirements

- This is a restricted numbers course and attendance and behaviour records from the previous year will be a large consideration when selecting students for the course.
- TIC discretion.
- Has proven levels of self-management skills both in and out of the classroom.

SPORTS PERFORMANCE

NCEA LEVEL 3

SPO 301

What will I learn?

This course is aimed at students who have a proven record of high performance in one or more sports and who wish to further their studies in Sports Science and its related areas. The course will be modular based and include: Anatomy, Exercise Science, Sports Conditioning and Sport Psychology. A focus of the course will be Personal Fitness, and Training Programme Planning and Implementation.

This course will be made up of both theory and practical aspects and students will be expected to participate fully in both.

Entry Requirements

- Minimum of 12 credits at a level 2 PE course. (Does not include Adventure Outdoor Education).
- High performance in team or individual sports and proven contribution to school sport.
- Students may be identified by Sports Managers, the Sports Coordinator and the Physical Education department.

ADVENTURE EDUCATION

NCEA LEVEL 3

ADV 301

What will I learn?

This course builds on the knowledge and skills learnt in 12 Adventure Education. Course content includes, kayaking, bush survival skills, river crossing, adventure-based learning, tramping, rock climbing and mountain biking.

Students considering this course should be prepared to engage in theoretical concepts in the classroom that will allow them to increase their ability to pursue adventure in the outdoors.

Entry Requirements

- A proven record of participation and achievement in ADV 201 or at TIC discretion
- This is a restricted numbers course and attendance records from the previous year will be a large consideration when selecting students for the course.
- Has proven levels of self-management skills both in and out of the classroom.
- Students should have passed AS 2.7 from a PE based course.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	US 32841 v1	Prepare for an overnight Outdoor Activity	3								
3	US 32876 v1	Knowledge of weather	3								
3	US 32850 v1	Participate and Evaluate a Multi Day Trip	3								
3	US 32845 v1	Work with others to plan and lead students in an Outdoor Activity	3								
3	US 32844 v1	Whakatipu Tangata	3								
3	US 32841 v1	Prepare for an overnight Outdoor Activity	3								
3	US 32836 v1	Weather, Survival Skills, Navigation	3								
3	US 427 v8	River Crossing	2								

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: This is not a university entrance course

Teacher in charge:

Mr Weakley/ Miss McTaggart

SCIENCE

Head of Department: Catherine Laing

Science includes General Science, Chemistry, Physics, and Biology.

Introduction

Science is a core subject at Years 9 and 10 and 11. At Years 12 and 13, if students continue with Science they may choose to do one or more of the three specialised areas:

Year 11 students: all students **MUST** take a Science course. Students will be directed into the most appropriate course for them.

- General Science; OR
- Internal Science; OR

Science subjects available in Year 12 are:

- Chemistry
- Physics
- Biology

Science, together with Mathematics and English, forms an important part of our curriculum. It is an essential subject to lead into many careers and professions.

What is Science about?

First and foremost, Science is about discovery. In learning Science one discovers, through systematic observations and experiments, what happens around us and why things happen.

Based on the knowledge and understanding we gain this way, scientists are able to make new discoveries and advances in a range of areas including: technology; medicine; engineering; material sciences; space exploration; genetic engineering; and horticulture.

Much of the Science curriculum at all levels involves hands on experiments. Students learn not only to plan experiments and investigations into all sorts of areas, but also to carry them out individually and in small groups.

Who can or should do Science?

If you are curious about the world around you and want to gain skills to find out why and how things happen, then Science is for you.

If you would like to pursue a career in medical sciences, technology, scientific research, engineering, horticulture or agriculture, the environmental sciences or the armed forces, then Science is for you.

Whether you have made up your mind about your career or not, you should give Science at Year 11 a serious attempt, and at least one branch of the Sciences at Years 12 and 13. Many employers, including those in law and accountancy, are now asking for graduates who have some science background so that they are able to deal with problems in which specific issues are involved.

BIOLOGY

NCEA LEVEL 2

BIO 201

What will I learn?

Year 12 Biology gives an overview of the plant and animal kingdoms. Topics covered include: cellular processes; genetic variation and changes; practical investigations (ecology, microscopes and cell processes); adaptations in plants and animals.

Entry Requirements:

A pass in CheBio 1.3 (92022) and one other standard from SCI 101. Recommended – a good foundation in literacy/English skills.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91153 v2	Carry out a practical investigation in a biology context, with supervision.	4								
2	AS91158 v2	Investigate a pattern in an ecological community with supervision.	4								
2	AS91160 v2	Investigate biological material at the microscopic level.	3		SR						

*Optional standard if Excellence grade in first AS91153 opportunity.

EXTERNAL STANDARDS

CHEMISTRY

NCEA LEVEL 2

CHE 201

What will I learn?

Year 12 Chemistry covers a range of topics including quantitative chemistry, oxidation and reduction, structure and bonding of compounds, chemical reactivity and organic chemistry. These topics will help one become more aware of our environment and our obligations towards Planet Earth and also our responsibility towards the future survival of the human race.

Entry Requirements

A pass in CheBio 1.2 (92021) and one other standard from Sci 101. Recommended - a good foundation in literacy/English skills.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91910 v1	Carry out a practical investigation into a substance present in a consumer product using quantitative analysis.	4

PHYSICS

NCEA LEVEL 2

PHY 201

What will I learn?

The first laws of Physics were developed in ancient times. Many of these laws hold true today. We will study things like light and waves and how they behave, we look at things like the Physics of getting a rugby ball over the goalposts, how satellites stay in orbit, why atomic bombs are so destructive – but how we can use similar concepts in medicine – and how electricity and magnetism are related. We will also find out about current events in Physics.

Entry Requirements

A pass in PESS 1.4 (92047) and one other standard from Sci 101. Recommended – a good foundation in Mathematics.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91168 v2	Carry out a practical physics investigation that leads to a non-linear mathematical relationship.	4								
2	AS91172 v2	Demonstrate understanding of atomic and nuclear physics.	3								

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91171 v2	Demonstrate understanding of mechanics.	6								
2	AS91173 v2	Demonstrate understanding of electricity and electromagnetism.	6								
2	AS 91170 v2	Demon state understanding of waves	4								

Vocational Pathways Award

To achieve a vocational pathways award you must gain NCEA Level 2 and achieve 60 credits from the recommended assessment standards, including 20 Sector Related (SR) Standards from the same pathway.

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

--------------------------	--------------------------	--------------------------------------	-------------------------------------	--	--------------------------

PHYSICS

NCEA LEVEL 3

PHY 301

What will I learn?

Physics can be thought of as the most fundamental of the sciences. It is concerned with the most basic building blocks of all things - from ants to antennae, from quarks to quasars. We will answer questions like: how does a Police speed camera work? why is it that different musical instruments make different sounds? how does a radio get tuned to different stations (what happens inside the radio)?; can we make predictions as to the height of the seawater midtide?; how does alternating current differ to direct current?; and, what was Einstein talking about when he came up with his idea of Relativity? You will learn to think critically and question evidence that is put in front of you.

Entry Requirements

A minimum of 15 Achievement Standard credits in NCEA Level 2 Physics.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91521 v2	Carry out a practical investigation to test a physics theory relating two variables in a non-linear relationship	4								
3	AS91525 v2	Demonstrate understanding of Modern Physics	3								

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91524 v2	Demonstrate understanding of mechanical systems	6								
3	AS91526 v2	Demonstrate understanding of electrical systems	6								
3	AS91523 v2	Demonstrate understanding of wave systems	4								

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

Various courses at tertiary study, including any of the Health Science courses, Architecture, Engineering, Computer Science, Design, Physics and AstroPhysics. It is also a good supporting subject for those considering a Mathematics degree.

Ms Laing

SOCIAL SCIENCES

Head of Faculty: Julie Sayers

GEOGRAPHY AND TOURISM

Geography Teacher in Charge – Sam Keegan

Tourism Teacher in Charge – Babette Higgins

Geography is the scientific and cultural study of the environment as the home of people. It seeks to interpret the world and how it changes over time – past, present, and future. It explores the relationships and connections between people and both natural and cultural environments. Geography investigates the ways in which features are arranged on the earth's surface. It describes and explains the patterns and processes that have created them.

"The study of geography is about more than just memorizing places on a map.

It's about understanding the complexity of our world." - President Barack Obama

Students learn to think spatially and use maps, visual images and new technologies, including geographical information systems (GIS), to obtain, present, analyse and evaluate information. Geography skills fall into several categories:

- **Geographic resource interpretation skills** e.g. using maps, statistics, models, surveys.
- **Geographic resource construction skills** e.g. drawing précis maps, constructing graphs.
- **Communication skills** e.g. writing paragraphs or essays, interviewing, using graphic organisers.
- **Social skills** e.g. work in groups, being empathetic, appreciating different values or perspectives.
- **Fieldwork skills** e.g. gathering information from the field such as surveying, measuring.

Geography can be picked up at any level without having studied the previous year's course. At all levels in Geography some part of the course is internally assessed.

Whatever level students take it, geography offers students the opportunity to learn a range of skills and knowledge that they can apply in their everyday lives. Geography can be a pathway to tertiary education and a broad range of careers. A geography job is any work that focuses on location. Although there are few jobs entitled GEOGRAPHER, employers like Geography students because they have a good understanding of the world around them. People who are able to make complex decisions using the above skills are required for a wide variety of occupations. Geography will help you in the following careers:

- | | | |
|------------------------|---------------------|-------------------------|
| • Tourist Officer | • Geologist | • Forest Ranger |
| • Landscape Gardener | • Diplomat | • Farmer |
| • Aerial Photographer | • Export Agent | • Cartographer |
| • Business Manager | • Journalist | • Teacher |
| • Ecologist | • Oceanographer | • Meteorologist |
| • Land Agent | • Town Planner | • Climatologist |
| • Mining | • Surveyor | • Local Government |
| • GIS Computer Systems | • Market Researcher | • Environmental Planner |

Does Tourism interest you? There are 180,000 New Zealanders directly employed in tourism. If you are keen to be part of a very dynamic industry that is currently New Zealand's second largest employer, then perhaps this is for you. There are job opportunities in every part of New Zealand – some of the most beautiful parts of our country.

Additionally, the tourism industry offers job opportunities worldwide, so if you want to travel, consider studying this subject.

HISTORY

Head of Department: Julie Sayers

“History is a conversation between the past and the present” E H Carr

There are many excellent reasons why learning History is a good idea:

- You will understand more about why our world is the way it is today. After all, you can't know who you are or where you may be heading, if you do not know your past.
- History is made up of many fascinating characters and stories.
- History extends your critical and creative thinking skills.
- You will learn to interpret historical information from a range of sources.
- You will develop your inquiry skills by learning how to gather information; how to select what information is relevant and how to organise the information with a variety of note making techniques.
- You will learn how to process information, how to tell the difference between fact and opinion and how to recognise different points of view, bias and propaganda.

You will learn how to present and communicate your information in a variety of formats. You will learn how to write accurately, logically and effectively.

- **Careers that History can lead to:**

- | | | |
|----------------------------|--------------------------|-------------------------------|
| • Teacher | • Journalist | • Lawyer |
| • Architect | • Historian | • Diplomat |
| • Researcher | • Town Planner | • Tertiary Lecturer |
| • Author | • Librarian | • Archivist |
| • Anthropologist | • Archaeologist | • Art Conservator |
| • Policy Analyst | • Publisher | • Web Designer |
| • Web Designer | • United Nations Advisor | • Officer in the Armed Forces |
| • Games/Animation Designer | • Film Director/Producer | • Museum/Gallery Curator |

History can be picked up at any level without having studied the previous year's course as long as you meet the prerequisites.

TOURISM

NCEA LEVEL 3

TOU 301

What will I learn?

TOU 301 provides you with a general understanding of Tourism, an important and growing sector in New Zealand and the world's economy. Topics include: Knowledge of the Tourism Industry, Destination Australia, Knowledge of the Pacific Islands and Australian Geography and the significance of Maori tourism sites.

If you choose to study Tourism at both Year 12 and Year 13, you may have the opportunity to gain the New Zealand Certificate in Tourism (Introductory Skills) – Level 2.

Entry Requirements

Priority will be given to those students who have successfully passed NCEA Level 2 or TOU 201 (gained a minimum of 14 credits), or HOD approval.

Please note that this is not an academic course. This is NOT a University Entrance approved subject, however the credits do count towards NCEA Level 3.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	US18211 V6	Demonstrate knowledge of Australia as a visitor destination.	5								
3	US31071 V3	Identify and explain the cultural significance of natural and manmade attractions in tourism Maori	6								
3	US23766 V3	Demonstrate knowledge of the tourism industry.	5								
3	US28126 V3	Demonstrate world knowledge of geography, including the Pacific Islands and Australia relevant to the travel industry	5								

Notes: TOURISM IS NOT A UNIVERSITY APPROVED SUBJECT.

Where does this lead to?

Tertiary studies in Tourism.

e.g

Level 4 Certificate in Tourism

Level 4 Certificate in Aviation and Flight Attending

CLASSICAL STUDIES

NCEA LEVEL 3

CLA 301

What will I learn?

- To engage with the literature, religion, art, architecture and culture of the classical world.
- To understand how and why ideas and values of the classical world have influenced other cultures, including New Zealand, over time.
- How to research information, think critically about sources and apply your understanding in different contexts.

You will be offered a choice of topics for Internal Assessments which may include, but are not limited to: classical heroes, death and the underworld, the role of women, images of power, and ancient religion. For the External Assessments you will learn about Augustus and the propaganda in Augustan art.

Entry Requirements

A minimum of 15 Achievement Standard credits in NCEA Level 2 English or History or TIC approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91397 V2	Demonstrate understanding of significant ideology(ies) in the classical world.	6								✓
3	AS91398 V2	Demonstrate understanding of the lasting influences of the classical world on other cultures across time.	6								✓

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
3	AS91395 V2	Analyse the significance of a work(s) of art in the classical world.	4							✓	✓
3	AS91396 V2	Analyse the impact of a significant historical figure on the classical world.	6							✓	✓

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

Where does this lead to?

University to complete a BA and/or Law degree.

Teacher in charge:

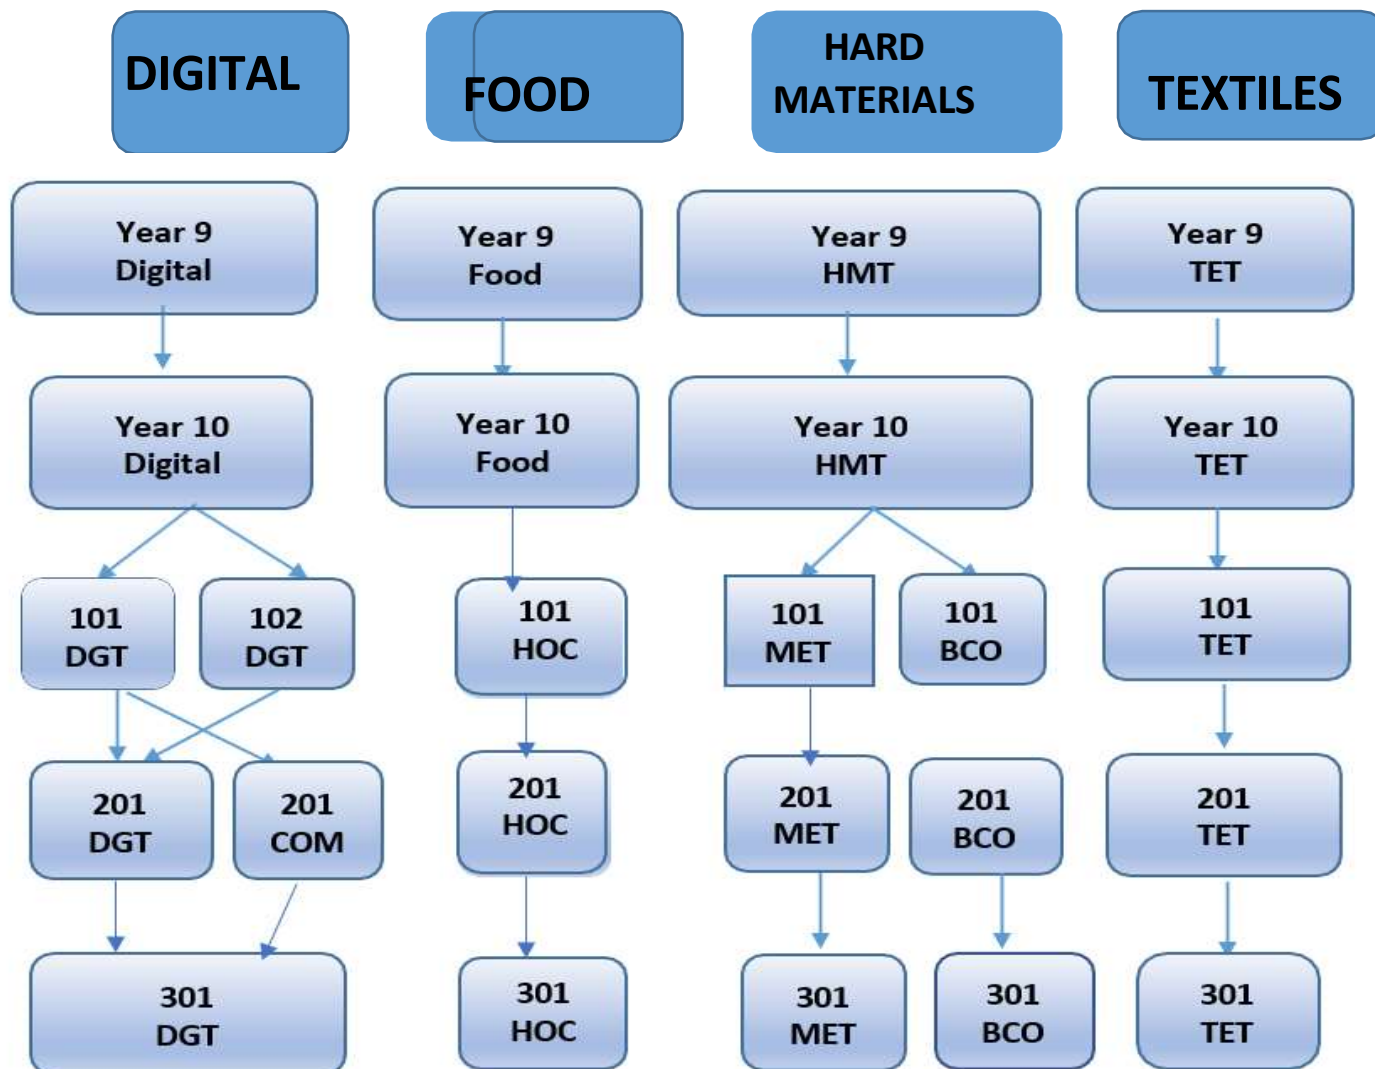

Ms Mulholland

Classical Studies can also be the basis for careers as diverse as: graphic and interior design, information technology, law, marketing, medicine, museums and art galleries, philosophy, politics, teaching, tourism.

TECHNOLOGY

Head of Faculty: Mr Bruce Thomas

The Technology Faculty offers students 5 subjects with alternative options in 2 of the subject areas. They all offer courses at Levels 1, 2 and 3 for NCEA.

DGT 101 is an Achievement Standard course and is a more academic course. DGT 102 is a Unit Standard course and is a more practical course. **Students may only enter DGT201 from DGT102 with HOD approval.**

HOC is a Unit Standard assessed course.

TET 101 – 301 are Achievement Standard assessed courses.

BCO is the Building & Construction class operating at levels 1, 2 and 3 in the Wood area.

****Scholarship options may be available in DGT and TET.**

DIGITAL TECHNOLOGY: COMPUTING

NCEA LEVEL 2

COM 201

What will I learn?

Computing 201 is desirable for anyone wanting to gain the knowledge and skills for a future involving computers or advanced design and media. This course takes a more computer science and technical approach. Themes covered include computer hardware and systems along with programming in Python. Heavy use of Google apps, mail, forums and sites etc. is an important aspect of this course.

Entry Requirements

14 credits from DGT 101 or program standards.

How is this course assessed?

DIGITAL TECHNOLOGY

NCEA LEVEL 3

DGT 301

What will I learn?

DGT is a combined class for both Computing and Digital Technology students. DGT301 encompasses both a DigiTech and/or a Computing course. A mixture of units may be taken; these are taught in parallel in the same class. DGT concentrates on extending students' design, project and software skills whereas Computing focuses on technical understanding and programming. Themes covered in this course include hardware and software systems, website development, project management, Prototype development and programming.

Entry Requirements

14 credits or higher from COM 201 or DGT 201.

How is this course assessed?

BUILDING & CONSTRUCTION

NCEA LEVEL 2

BCO 201

What will I learn?

This course is the second level of the BCATS (Building, Construction and Allied Trades Skills) programme. It will further develop skills and knowledge to springboard into a career in the construction industry in areas such as carpentry, joinery, flooring, frame and truss etc. Students will make garden furniture and a smaller wood-based project. Students who show ability in design may be offered some Technology Achievement Standards.

Entry Requirements

Successful completion of Year 11 Building and Construction or by negotiation with the HOF.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R

MECHANICAL ENGINEERING

NCEA LEVEL 2

MET 201

What will I learn?

This course will offer an introduction to basic construction skills, including safety, processes, materials, and quality control. You will learn how to use hand and power tools to produce quality metalwork. One or two projects will be completed over the year.

Product Design Alternative

This course will offer a different learning pathway for students wishing to follow a more creative materials technology experience. All students will follow the engineering course initially covering US 32053 and US 32055 as these provide foundational knowledge and training for the use of advanced manufacturing techniques. The learning focus of these standards lies in problem solving and the application of high-quality construction skills and the ability to communicate their own problem-solving processes clearly while creating a set project. Once this is complete, a bespoke project of their choice can be made.

Entry Requirements

A minimum of 10 credits in MET101 or HOF approval

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	US2395 V9	Select and care for engineering hand tools.	4

MECHANICAL ENGINEERING

NCEA LEVEL 3

MET 301

What will I learn?

This course will offer 1 to 2 set projects that meet the requirements of the practical standards below. These two standards require no theory to complete but a successful product that meets the requirements must be made. The last standard is about development drawings and will require theory and possibly practical tasks to complete. There may be a possibility of doing the EVelocity Program which would run adjacent to the practical requirements. This will be based on ability and attitude and will be a group project.

Entry Requirements

A minimum of 10 credits in MET201 or by negotiation with the HOF.

VISUAL ART

Head of Department – Shannon-Mae Read

The Visual Arts curriculum at Upper Hutt College provides students with opportunities to explore, challenge, affirm, and celebrate unique artistic expressions of self, community and all cultures. It provides opportunities for student identity to be openly explored and is inclusive of the forms and practices of customary and contemporary Māori and Pasifika visual arts.

Students in the junior Art programme at Upper Hutt College learn the fundamental elements and principles of art through a highly structured and diverse curriculum; from colour theory, painting, printmaking, to digital art, design and photography using the Adobe Suite. The junior curriculum prepares students for senior Art specialist subjects by equipping them with a range of skills, techniques, experiences, and a knowledge of a range of art making conventions.

In order to enter Level Two and Three specialist Art courses, students must have achieved Level One Art. Exceptions may be considered where a student demonstrates exceptional art making skills in an interview with the Head of Department.

Levels Two and Three

Specialist studies in level two and three Art ***Painting, Design, and Photography*** are more student directed and involve inquiry based learning over the duration of the academic year. Where students are entered in more than one Visual Art subject, they may use the same theme for their inquiry across both art disciplines for example level two Photography and level two Design.

This approach to the senior art curriculum prepares our young people for a future in the **Creative Industries** via academic or vocational pathways such as:

- Visual and performing arts as artists, technicians or educators
- Museum and gallery curator or management, commercial / fashion photography
- Photojournalism, film / documentary and television
- Design and development of products, including communications, architecture, advertising and publishing, event's organiser.
- Arts-related businesses connected with large industries such as film, television and animation
- Management roles including heritage and cultural advice. Māori and Pasifika culture and identity is fully represented in this pathway. Through working in the creative industries young people can make a difference to individuals, whānau, hapū, iwi, communities and the world at large.
- Work requiring te reo Māori and/or kaupapa/tikanga Māori awareness continue to grow, along with a strong, contemporary Māori arts scene.

Subject Endorsement and University Entry

Students have the opportunity to produce a large body of work and a portfolio at Level Three that becomes a gateway for university entry. We offer Visual Arts Merit and Excellence subject endorsement at Level One, Two and Three and Scholarship at Level Three, should a student be a strong candidate. Each Level Three Visual Arts subject offers 14 external credits per course and are all university approved subjects.

ART - DESIGN

NCEA LEVEL 2

ADE 201

What will I learn?

Year 12 Design

You will explore the conventions of design styles to inform your own branding design for an invented business. This will develop your critical and communication skills and prepare you with a range of skills you will apply, develop, and extend within your design briefs through hand drawing, photography, using the digital Adobe Suite (Photoshop, Illustrator, and InDesign). The course builds on itself, so that the two internal standards lead into the external folio.

Entry Requirements

A good record of achievement in Level 1 Visual Art, including a successful portfolio submission, or by HOD approval.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy	
										Wr	R
2	AS91310 v2	Use drawing methods to apply knowledge of conventions appropriate to design	4						SR

ART – PAINTING

NCEA LEVEL 3

APA 301

What will I learn?

Year 13 Painting

You will engage in a yearlong inquiry exploring a theme. Your work will explore current established drawing and painting practice both of contemporary New Zealand and international art. You will develop your critical and fine art skills in drawing and painting. The course builds on itself, so that the two internal standards lead into the external folio.

Entry Requirements

A good record of achievement in Level 2 Painting, including a successful portfolio submission.

How is this course assessed?

INTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91446 v1	Use drawing to demonstrate understanding of conventions appropriate to painting or printmaking	4										
3	AS91451 v2	Systematically clarify ideas using drawing informed by established painting practice	4										

EXTERNAL STANDARDS

Level	NZQA Code	Standard	Credits	PI	SI	S&C	M&T	C&I	C	UE Literacy		Level 1	
										Wr	R	Lit	Num
3	AS91456 V2	Produce a systematic body of work that integrates conventions and regenerates ideas within painting or printmaking practice.	14										

Notes: For University Entrance 5 Writing and 5 Reading credits are necessary.

ART - PHOTOGRAPHY

NCEA LEVEL 2

APH 201

What will I learn?

Year 12 Photography

You will engage in a yearlong inquiry exploring a theme and subject of your choosing. Your work will explore current established photographers and photographic practice both of contemporary New Zealand and international art. You will develop your critical and fine art skills using a digital SLR camera and Photoshop skills. The course builds on itself, so that the two internal standards lead into the external folio.

Entry Requirements

A good record of achievement in Level 1 Visual Art, including a successful portfolio submission, or by HOD approval.
